PRETTY HOME WEDDING

A very beautiful home wedding took place at the home of Mr. and Mrs. P. E. Carder last Friday evening, when their niece, Miss Wanda May Fierce, formerly of Hunnewell, Kansas, and Mr. Millard Jo Marsh were united in wedlock.

The Carder home was beautiful with a profusion of ferns and orange blossoms which made up the floral bower of the bridal party.

Mr. Llewellyn Marsh, brother of the groom and Miss Jessie Fullmer of Los Angeles attended the couple as best man and bridesmaid.

Rev. Graft performed the ceremony which was made unusually impressive by the splendid rendition of Lohengrin's wedding march on the harp by Mr. Bechtelheimer who also sang "Oh promise me."

The bride was lovely dressed in a simple gown of white chiffon crepe and carried a shower bouquet of white rose buds, lily of the valley and orange blossoms. Miss Fullmer wore white taffeta.

The groom is the promising young son of J. W. Marsh of Pasadena and holds a responsible position with the Ville De Paris Company of Los Angeles.

The bride is the granddaughter of E. M. Rugg of Redondo who for many years was prominent in the political life of the middle states.

The happy couple left on an early morning train for a short honeymoon trip after which they will be at home to their friends at their cozy cottage which the groom had prepared for his bride in Pasadena. Although Miss Fierce was a comparative stranger in this community, those who have been so fortunate to make her acquaintance, have found her a most charming and lovable young woman. And the best wishes of her acquaintances here go with her to her new home.

At the Community Church on Sunday at 11 o'clock the pastor's subject will be "Washington and Lincoln, a Contrast." Attractive folders will be distributed. Sunday school at 10 sharp. Epworth League at 7 p. m. Neglect not the assembling of yourselves together as the manner of some is. Bible.

Mr. and Mrs. G. W. Burch motored to Long Beach Wednesday to call on Mrs. Deven, a North Dakota friend who is visiting in the beach city.

FOUR HUNDRED PEOPLE WITNESS ATHLETIC ENTERTAINMENT

Last Friday evening an entertainment was given by the Girls Athletic League in the hi school auditorium.

This was the first of a series of three public events to be given by the league, which is an organization of the high school girls of the valley.

The program consisted of folk dances and gymnasium exercises. The girls from San Fernando gave Swedish and Japanese dances and the Dance of the Daisies representing the swaying of a field of daisies in a breeze. They also gave a dumbbell drill and an Irish jig, both of which delighted the audience. The following girls represented the San Fernando school: Drill: Gladys Shelly, Ann Pearce, Monta Huskon, Lillian Coyle, Wilhelmina Warner, Olin Olds, Katherine Easley, Frances Johnson, Ethel Benson, Violet Olds, Emma Oliver. The dancers were: Louise Miller, Dot Folger, Madeline Campa, May Reynolds, Thelma Waite, Gertrude Lucham, Dorris Sisco, Carol Canby, Pearl and Alma Kennedy. The players were Evelyn Jones, piano, Viola Caldwell, mandolin, Phoebe Sise, who, violin. Director, Miss L. L. Specht.

The following girls from Van Nuys in Greek costume represented the Vestal Virgins in a number of classic poses illustrating famous pictures: Laura Wilson, Rosamond Smith, Alta Franklin, Jennie Campbell, Linda Lehman, Hazel Tazor, Hattie Huffaker, Laurana Hendricks, Rhoda Lehman, Lorena Smith, organist, Mrs. R. L. Letch, director.

The local school gave two Russian dances entitled In the Fields and The Waves. Those participating were Ruby Davis, Mildred Hale, Jessie Beckstead, Gladys Riddle, Lillian Burch, Lenoir Craven, Dorothy Tweedy, Antonia Weber, Corinne Clemente, Ruth Morris, Elsa Schneider, Kathryn Lacy, Della Grant and Viola Dady.

Ruth Morris and Zulah Bridges gave the colonial dance Varsouvienne very prettily.

The orchestra under the direction of Miss Draper gave the opening and closing numbers.

The audience taxed the seating capacity of the auditorium, being the largest gathering of the season. The proceeds will be used in the purchase of apparatus for the girls' gymnasium.

Carroll Driscoll, who regularly carries the Calabasas students to and from school, kindly consented to take them to the entertainment at the high school Friday evening.

Meda Stone entered the second year class of the hi school Monday by transfer from Hollywood, HI. Her brother Harvey is expecting to enter next week.

moved into their new home on Calabasas avenue. Mr. Thorp is planting 20 acres of orchard.

Miss FORT Druggie of the Gazette office last week a slender twig from a 2 year old tree bearing four mature lemons. The fruit is smooth, of uniform size and perfect in every respect. The young

J. D. Stone has taken up a ranch of 45 acres on Twelfth street, of which he expects to put about 20 acres into beets, the rest being in alfalfa. Mr. Stone resided at Lancaster before coming here.

A meeting was held at Zelzah last week Wednesday evening to discuss the proposition of establishing a cemetery in the valley; the Owensmouth Chamber of Commerce was represented by resident W. E. Bechtelheimer. After discussion a committee was appointed to investigate the matter and report at a future meeting. N. Johnson of Chatsworth was selected as chairman of this committee, the other members being M. L. Jllensvang, Zelzah, Alan Weber, Alabassas, J. B. Langum, Van Nuys, L. P. Mitchell, Owensmouth, Noble, San Fernando. Men's, Women's and Unit

GEO. W Owensmouth

A good many walnut trees have been set out around Owensmouth and Mr. Craven has added to the number by planting on his ranch just west of the high school five hundred Eureka and two hundred and fifty Placientias. He is planting them forty feet apart to give them plenty of room. The trees are fine stock.

Mrs. Martha Wilkins and Mrs. Mattie Howell of Chatsworth visited Miss Striebe on Monday.

BOY SCOUTS CELEBRATE ANNIVERSARY WITH A BANQUET

The Boy Scouts of America celebrated their seventh anniversary Feb. 8, on one of the mountain peaks west of the Trexler Ranch.

The peak was given the name of Eagle Point by some of the scouts. The supplies were taken out to the Trexler Ranch in a machine. Here they were put in a tub and carried to the foot of the mountain. Four of the boys who belong to the Eagle Patrol climbed to the top of the mountain in search of the place chosen for the banquet. After many difficulties the spot was located. Before it was found, however, the boys were threatening the chairman of the location committee with all sorts of vengeance for picking out such a spot, when suddenly the person being discussed (Ellis Craven) stepped from behind a rock and pointed out a better path than the one the scouts first followed.

The wood was collected and the fireplace built. Some of the boys carried the tub to the summit and the rest busied themselves by carrying water and lighting the fire. The molasses stew was mixed in the tub and put to boil.

When darkness came a fire was built on the edge of the mountain to guide the guests to the right location. Earl Carder and Edwin Dickes acted as guides. The invited guests were the fathers of the boy scouts.

The program was as follows: Bugle Call—Carroll Driscoll. Scout Oath—All the scouts. Reading of President's Message—Frank Warner.

America—Sung by the scouts, with cornet accompaniment. Those receiving their badges from Scoutmaster Ed Goodall and Assistant Ralph Goodall were Sherman Adams, Dean Gehwind, Arthur Schilling, Alphons Knapp, Fawn Beck.

Breaking of ranks. Building of double arch—Senior Patrol. Building of double fan—Junior Patrol. Building of single fan—Junior Patrol.

Banquet. Presentation of badges to the three commissioners, Messrs. Warner, Monroe and Burch, by Patrol Leader Earl Carder, with a neat speech.

After the formal part of the program was over thrilling stories were told by many of the guests sitting around the camp fire.

On Feb. 12 Kenneth Corryell was voted into the boy scouts.

In locating the points on the compass the Eagles defeated the Slogas by a narrow margin. George Burch was elected to write up the boy scout news for the Gazette.

A 2-h.p. electric motor has been installed in the Electric Shoe Hospital and Mr. Striebe is now ready for business.

Mrs. Geo. Lane and 2 months old son Frank, of Lancaster, are visiting her mother, Mrs. B. Straubinger.

Lincoln's Birthday Celebrated in Most Patriotic Manner by Teachers and Pupils

The Marian Grammar School opened its doors to the community on the afternoon of Lincoln's birthday by giving a public flag raising. The following program was rendered:
A Flag Day Exercise
Four tiny tots
Columbia's Banners
Six boys and girls
Advice from Washington
Five first graders
Recitation—The Flag Goes By
Two boys
History of Patriotic Songs
Six girls
Biography of Lincoln
Kent Garner
Lincoln's Gettysburg Address
Wallace Brainard
Quotations from Lincoln
Three Girls
History of Our Flag
Six Young People
Helen Showalter
The Flag Raising
The Salute to the Flag
School
The program closed by all singing America.

A Valentine party was held at the Marian school on Feb 14. A Valentine box created much interest and after the exchange of missives the teachers served lemonade and candy.
R. B. Currier, editor of the Azusa Pomotronic, and his wife spent Sunday with their cousins, Mr. and Mrs. E. A. Brainard.

Howard Currier of El Monte spent the afternoon of Feb. 12 with his sister, Miss Jessie Currier, at the Brainard home.

The Marian Union Sunday School will meet at the home of Mrs. E. A. Brainard Sunday, Feb. 25, at 2:30.

Mr. and Mrs. George Bott and daughter Bernice spent Sunday with Mrs. Bott's mother in Simi.

Miss Jessie Currier spent the weekend at Fullerton.

The Owensmouth Chamber of Commerce meets Saturday evening at 8 o'clock in the Syndicate Block. Important matters will be considered and a large attendance is desired.

Francis Labadie will appear at the Owensmouth Hi School Auditorium this evening in his famous entertainment, including poems, E. C. G. F. L. C. songs, stories and ballads, treating of the traveler's personal experiences in Alaska and Canada. The entertainment is said to be of unusual merit and there should be a large attendance.

AIR NOT NATURAL.

YOU CAN see as well as the apples, peaches, grapes and so forth, that have their inside substance protected by their skins. If there is proper moisture in the ground the fruits grow from the earth, but if the ground becomes too dry, or if the roots run too shallow to find moisture, the trees change to draw their acids from the air.

Atmospheric acids make large but pulpy fruit while earth acids make fruits sharp in acid but less in size. To get this earth acid into the blood without being reduced to air, or gas, is the true science of health. If honey is obtained from the hives in atmospheric, or its moisture is.

By keeping honey in contact with the moisture of the earth through cold weather the atmospheric moisture is condensed and the electrical forces of the earth are drawn up into the honey. It causes the honey when eaten, or mixed with pure water to combine with water. If electricities of the honey were atmospheric it could combine with water only in the atmospheric, or gaseous form. It is expansion of water into gas which produces muscle power by the freeing of the electricity causing the molecules to stand farther apart, like the trees in an orchard require to stand a space from one another.

When the muscles are worked over there is a residue of solid matter left to clog the tissues but electricity goes out without leaving any residue.

By ripening honey or fruits by the earth moisture the air ingredients are condensed but when they ripen by atmospheric moisture the earth ingredients are expanded. After getting honey reduced to its pure carbon the next thing is to get it into the blood without its taking nitrogen (animal refuse) from the air and its foul gases.

Honey is to be added to acid which has the same electrical activity as the blood. This can be easily told by the agreeable taste when a little honey is stirred in water. The amount of sweet as tastes best will produce the exact amount of acid (oxygen) for your own special digestion. Before the honey and water are stirred together to form acid the honey should be soaked in water for 24 hours to dissolve the vegetable cellulose that encloses the cells which contain the life germs.

Then the honey and water are to be mixed and put into red colored bottles with corks and the bottles immersed in water and the air or pail of water in which the bottles are setting sunk in moist, cool earth. In from one to three hours it will taste sharp and delicious like new cider or wine, and it is not intoxicating in the least.

If a digestive ferment containing animal substance has been in the breath, or even in the skin, have a stench far worse than the carcass of a rotting dead animal because it is the destruction of oxygen by the sulphur which disorganizes the substance into its minutest atoms and it is these atoms that are fine enough to penetrate the brain. This retentiveness is produced by lack of fruit, or honey acid.

To improve on oxygen food you will be obliged to get out early in the morning at muscular labor in order to expel all of the old juice. New food mixed with old juice produces the vinegar fermentation, which is from the air. It turns food into atoms instead of building blood cells.

To "dress" a garden or orchard (See Gen. 1st. Chap.) is to gather up all of the weeds and bury them, not burn them. Dressing means to put out of sight. Clothing is required to keep the white rays of sunlight away from the body.

C. W. DAYTON,
The Red River Honey Man.

The Effects of a Club Breakfast

By EDWARD T. STEWART

Dovling left his sleeping room at his club and went downstairs to breakfast. Scanning the menu, he saw, what he had seen every morning, that if he ordered a breakfast made up of different dishes he would have enough for half of any encounter on a street not claimed by the owners or disposed of by due legal process.

Mrs. W. E. Becketed invited 12 children to her home on Feb. 6, 1911. She was laboring her son Allan to be said to himself, "and keep a cook."

Going to his office by a different route from the usual one, he passed a house on which was a sign, "No Let." It was a dairy edifice and would furnish him with just about the room he needed. Pushing the bell button, the answer was answered by a woman just as young as the house. She was in mourning. Dowing told her he was thinking of taking a house and was invited inside. After he had been informed as to the number of rooms, rental, etc. he remarked: "I wonder that you can bear to part with a house like this for a little while. Tears stood in the lady's eyes as she replied that she had been married a year before and her husband had died soon after the expiration of the honeymoon. She had not been able to tear herself away from the home in which she had been so happy and would not do so now, but she had found living alone unprofitable.

"The rental would be satisfactory to me," said Dowing. "May I look through the premises?"

The widow led him from the living room and into a room that was full of beans and 100 tin cans.

The annual convention of San Fernando District South School Association will be held at the Methodist Church in Van Nuys on Friday, March 2. The program committee consists of Rev. Miss C. A. Bevis, R. R. Edwards, N. Johnson, Eric Goodall and Mrs. S. Trotter.

Bean Broker J. E. Dewell Jr. just completed a tabulation of the Lima beans in the warehouse that are stored in the hands of the growers. He states that only about 30,000 100-pound bags remain their hands. Independent buyers are now offering growers \$6. for September delivery of the crop. The top notch price per bushel is now to date is \$7.85, by local buyers.—Oxnard News.

Dr. A. Frost, formerly dead

"No matter how costly is correct," replied Dowing. "As to delicacy, you have been misinformed."

Dowing spent an hour at the table, but the principal part of it was in chatting with the widow. When he arose to go he said that he would call again in the evening with a house and the transaction would be completed.

"But you have not seen the upper part of the house," said the lady.

"We seen the breakfast room and eaten in it," replied Dowing. "With such a delightful lower story there how could need of examination?"

"When will you require possession?"

The widow would have asked "On what?" but Dowling's look betrayed her. He was in his mind. She dared not go further, for his expression said plainly, "Just as soon as you will consent to remain with me here in wedlock."

Dowing called in the evening with a blank lease, which he filled in and signed, and the widow signed it, and then he handed her a check for the first month's rent, with an additional \$10.

"What's the \$10 for?" Dowing didn't like to say that it was for the breakfast, so he said that it was to bind the bargain.

"I suppose," said the lady ruefully, "that I must move out at once."

"Remain as long as you like."

The terms did not suit the widow at all. She would no longer of remaining in her house while receiving rent for it, so she handed back the check. Dowing persuaded her to let the lease stand, payment of rent to begin when the house was given.

Meanwhile he went most of his evenings calling on his landlady and within a fortnight proposed to her. She spent a week looking up his credentials, then threw off her morning for her first husband and began work on a transaction for the second. The lease that had been drawn up between them was torn up, and a document was drawn by

an attorney to take his place. In marrying the widow relinquished a portion of the property left her by her husband. But Dowing was wealthy, and his wife retained the home in which he had found her.

When the invitation list for the wedding was prepared it was found that the pair had many mutual friends.

After the wedding Dowing was invited to breakfast with a friend at the club.

"Thank you very much," said Dowing. "I can get a better breakfast at home. It was a club breakfast that forced me out of club life."

Artificial Eyes.
The earliest record of artificial eyes occurs in a very rare work by the French surgeon Ambrose Pare, entitled "La Methode Curative des Playes et Pratiques de la Teste Humaine," Paris, 1661. Pare gives a description and figures of artificial eyes that were in cases where the eyeball has given way and all the humors have escaped. They are to be segments of a hollow sphere, made of gold coated with enamel painted in natural colors. With the exception of the gold they are exactly like the artificial eyes that are in use at the present time, which are made wholly of glass.—London Spectator.

Personal and Local Notes

Solly Patrick, a former student at Owensmouth High School, is now employed in the office of the Los Angeles Tribune.

Van Nuys is to have a branch city pond, where stray animals may be housed and cared for until claimed by the owners or disposed of by due legal process.

Mrs. W. E. Beckett invited 17 children to her home on Feb. 6, to assist in celebrating her son Allan's fifth birthday. The little tots engaged themselves playing games of various kinds.

Miss Ruth Ely is driving a handsome new Overland car, a gift from her father. Miss Ely is considered one of the best lady drivers in the valley and appreciates the new machine very much.

A. J. Boulanger, formerly of the Van Nuys Owensmouth-Marian Growers' and Canning Association, is now located at Fullerton. He has charge of the California Vegetable Union business in Orange county.

Alex Jeffrey will be one of the most extensive farmers in the valley this season. Including his own lands and those under lease he is operating 2300 acres this season, 1,000 acres in sugar beets, 800 in alfalfa, 100 in beans and 100 in potatoes.

The annual convention of the San Fernando District Sunday School Association will be held at the Methodist Church in Van Nuys on Friday, March 2. The program committee consists of Rev. Miller, C. A. Beck, R. K. Edwards, N. C. Johnson, Erle Goodall and Mrs. H. S. Trotter.

Bean Broker J. E. Dewell has just completed a tabulation of all the Lima beans in the warehouses that are still in the hands of the growers. He states that only about 30,000 100-pound bags remain in their hands. Independent brokers are now offering growers \$6.50 for September delivery of the new crop. The top notch price paid for Limas to date is \$7.85, by a local buyer.—Oxnard News.

Dr. J. A. Frost, formerly dean of the Northwestern College of Minneapolis, and his wife are guests of Mr. and Mrs. D. M. Hartsough. Mr. and Mrs. Frost plan to locate permanently in California. Mrs. Hartsough graduated from the Northwestern College under the tutelage of Dr. Frost and appreciates the visit from her former instructor. Miss Gertrude Martin, also a student at the same college, is spending some time with Mr. and Mrs. Hartsough.

Dr. Foster M. Hill, physician and surgeon, located at corner of Sherman Way and Broadway, Owensmouth. To be found at this location day or night. Calls promptly attended. Temporary office, Drug Store. (ADV. 535-10)

CALIFORNIA, FRIDAY, FEBRUARY 15, 1916

OWENSMOUTH CATTLE MAKE REMARKABLE RECORDS

Guernsey Herd at Elliott-Brant Ranch Won High Honors During the Year 1916

A summary of the 1916 year's work at the Elliott-Brant Ranch dairy shows some remarkable figures, which indicate that the San Fernando Valley is an ideal dairy section and is especially adapted to the famous Guernsey breed, whose milk is so rich, yellow and desirable as to demand a price nearly as high as taxes. Fifteen cows, including seven heifers, have completed advanced Register tests with wonderful results. The average age was 3 years and 4 months. The average production was 10,172.23 pounds of milk and 507.97 pounds of fat; this exceeds the average production of the mature cow.

The following has surprised Owensmouth: A business man's wife suffered from dyspepsia and constipation for years. Although she dieted she was so bloated her clothes would not fit. ONE SPOONFUL buckhorn bark, glycerine, etc., as mixed in Adler-ika relieved her INSTANTLY. Because Adler-ika empties BOTH large and small intestine it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICKEST action of anything we ever sold. Bechtelheimer's Pharmacy.

Your Last Chance

Recently we published in these columns an offer of the Youth's Companion and McCall's Magazine, both for a full year, for only \$2.10, including a McCall Dress Pattern. The high price of paper and ink has obliged McCall's Magazine to raise their subscription price February 1 to 10 cents a copy and 75 cents a year—so that the offer at the above price must be withdrawn.

Until March 31 our readers have the privilege of ordering both publications for a full year, including the choice of any 15-cent McCall's Dress Pattern, for only \$2.10.

The amount of reading, information and entertainment contained in the fifty-two issues of the Youth's Companion and the value of twelve monthly fashion numbers of McCall's at \$2.10 offer a real bargain to every reader of this paper. This two-at-one-price offer includes:

1. The Youth's Companion—52 issues.
2. The Companion Home Calendar for 1917.
3. McCall's Magazine—12 fashion numbers.
4. One 15-cent McCall Dress Pattern—your choice from your first copy of McCall's—if you send a two-cent stamp with your selection.

THE YOUTH'S COMPANION, St. Paul St., Boston, Mass. New subscriptions received at this adv. Office.

TWO YEAR OLD LEMON TREES PRODUCE FRUIT

Superintendent J. T. Holt of the Reson Ranch is one of the happiest men in the valley, the particular cause of his good humor being the citrus trees on the above mentioned ranch have passed safely through the first winter. One of the most protracted cold spells ever experienced in this locality. Mr. Holt brought to the Gazette office last week a slender twig from a 2 year old tree bearing four mature lemons. The fruit is smooth, of uniform size and perfect in every respect. The young trees are well filled with winter bloom and the indications are that several hundred boxes of marketable lemons will be harvested the coming season. Six acres more of lemons are to be planted on the ranch, bringing the total acreage of this fruit up to 100.

PLANT ALFALFA

with drill and save half cost of seed. See N. M. Graham, Owensmouth, Cal.

Kodaks \$2 up at Bechtelheimer's.

THERE IS A REASON

Classified Liners

Some ranchers say they can buy concrete pipe cheaper than the Valley Concrete Pipe Company is selling their machine made pressure pipe for. However, they insist on having their machine made pipe—why? The Valley Concrete Pipe Company have the services of an experienced Civil Engineer to lay out their system, including all improvements up to date; next they employ pipe layers that know their business to avoid leaks and defects and the appearance of their work when completed is worth more than the extra price to say nothing of the ease and comfort of the much taken when irrigating his alfalfa or trees or whatever it may be. The price will long be forgotten while the pleasure of doing the work easy will be with you for years to come.

Remember Mr. Rancher a good pipe line such as we install, improves yearly for forty years, there is no wear out like steel or iron that starts to depreciate the day after the job is finished, or a poorly laid concrete pipe that leaks at every joint and you have to wear rubber boots to wade, or the stream of leaks while irrigating. Bear in mind if you want a good lasting job that will give you satisfaction, and your money's worth call Phone 62 and we will call on you and give what information you need to do your work, also furnish estimate.

VALLEY CONCRETE PIPE CO.
262 Sherman Way, Van Nuys adv.

Announcement is made that the School in Poultry Husbandry conducted by the university of California in Southern California as a branch of its work at the Davis Experimental School, will be held this year for three days at Pomona and three days at Van Nuys.

The dates at Van Nuys, stated in a letter to B. R. Hallows, will be June 11, 12 and 13. The sessions will be from 9:30 a. m. to 12 m., and from 1 to 3 p. m.

This school will bring poultrymen and people interested in the industry together and much useful information will be gained from the exchange of experiences as well as from the lectures to be delivered by the university instructors.

INCREASE YOUR CROPS

By using lime. The Riverside Portland Cement Co. furnishes ground Limestone at a price which makes it profitable for farmers to use. Sample at Owensmouth Post-office.

J. F. JENAL, Local Agent adv.

For San Fernando Valley area, you should read the Owensmouth Gazette, \$1.50 per annum.

First Aid to the Drowned.
A reader sends this novel suggestion, which may prove serviceable in an emergency to those whose hearing has been impaired: "A friend who is deaf made me acquainted with a very simple aid to hearing which I wish to pass on to others. It is nothing more than a mailing tube. Any kind of paper is to be used, however, by simply rolling it into a tube and speaking into the end, setting the other end against the ear of the deaf person. I am about as deaf as they ever get and have spent hundreds of dollars with specialists, but this simple roll of paper beats them all. Even a newspaper can be used."—St. Louis Post-Dispatch.
