

# AN APPEAL FOR THE RED CROSS

## YOUR PRESIDENT SAYS:

WHITE HOUSE, MAY 10, 1917.—"I have today created within the Red Cross a War Council to which will be entrusted the duty of responding to the extraordinary demands the present war will make upon the services of the Red Cross both in the field and in civilian relief and I hereby earnestly call upon all who can contribute either great sums or small to the alleviation of the suffering and distress which must inevitably arise out of this fight for humanity and democracy, to contribute to the Red Cross.

"Wherefore, by virtue of my authority as President of the United States, and as President of the American Red Cross, I, Woodrow Wilson, do hereby proclaim the week beginning June 18, 1917, as Red Cross week, during which the people of the United States will be called upon to give generously and in a spirit of patriotic sacrifice for the support and maintenance of this work of national need."

WOODROW WILSON.

(By John B. Miller, who was appointed by President Wilson to take charge of the American Red Cross War Fund in the territory west of the Mississippi.)

If you are a real American you must contribute to the War Fund of the Red Cross during the week of June 18 to 25, whether you believe yourself able or not. If you are a real American it is not a question of giving from your surplus—you must give and keep on giving until you can give no more, and, even after that, you must keep on.

We are at war, but do not realize what war is, and, if the Red Cross is able to do its full duty, we will never know what war can be.

Do you know what the Red Cross does?

Some day, "Somewhere in France," when our soldiers are in the trenches, a line of American boys will leap over the top of the trenches, slip thru the barbed wire, and, in the face of high explosive shells, gas, liquid fire, shrapnel, grenades, machine gun and rifle fire, face the barbed wire in front of enemy trenches for the bare chance of meeting bayonet with bayonet, other boys no more to blame for this war than they are.

You know what the loss will be. You know that after Ypres the Princess Pats had only 127 men men alive out of the 689 that saw the sun come up that day.

What of the killed? If the Red Cross is feisty, the Ambulance Corps of the fighting regiments will carry the wounded back thru the communicating trenches to the dressing station. Here Red Cross surgeons, under the direct control of the United States Medical Department will give first aid. The wounded will be turned over to Red Cross ambulances and carried back to the Red Cross field hospital for immediate attention. From the Red Cross field hospital, Red Cross ambulances, Red Cross trains, and in France, even Red Cross canal boats will carry the men back to the Red Cross base hospitals. If the wound is not fatal a Red Cross convalescing station will take care of the soldier till he is ready to go back to the front. If the man is disabled a Red Cross steamer will bring him back to America, and the Red Cross receiving station here will care for him, send him home, and on top of that look after his family after he is wounded just as it will have looked after his family all the time he has been away.

Ex-President Taft is the chairman of the Red Cross. His accounts are audited by the War Department.

The Red Cross is therefore a part of the fighting forces of the Government and must be supported as such. This support will be easy enough to get—when that support is too late. Let the toll of one hospital crowded and our own men dying for want of attention, the responses to the Red Cross will roll in fast enough—but then it will be too late.

Don't you be one of those to hold back until that time. Don't be a slacker. You inevitably will contribute. Why not now?

For further details see Mrs. Driscoll, resident of the Owensmouth Red Cross, or Miss Rooksby, secretary.

## AUTO TRUCKING

E. H. Stamps and H. B. Goodrich have established auto trucking service at Owensmouth and are prepared to do heavy hauling of all kinds promptly. Leave orders at the office or phone 80133—adv.

We want your subscription. When you read this copy, see that you subscribe. The Gazette is a strictly home paper, and it tries to get all the news.

Watches and jewelry neatly repaired at Hartman's Jewelry near the Noyes.

Dr. Lindsey enjoyed a visit from his wife Wednesday. The doctor has leased the Bowles cottage and will occupy it with his family the first of July.

The graduating exercises of the Zelzah school will be held in the auditorium of the Marian school Thursday evening, June 23.

The new stage scenery at the hi school will be used Saturday evening for the first time.

**THE NEW WOMAN'S REMEDY**  
These remedies had proved so wonderful in curing all ailments of the female that druggists found their customers turning from them. A combination was found exacting and with millions of dollars' worth of it, and threats were made that it would be a bankrupt in six months. I am now going for the drug in turn, and I have brought forth wonderful remedy that will shut its doors on many of them. I have combined my twenty-one remedies in the shape of a porous plaster, and this plaster is going to revolutionize the world.

The name, Brown's Paradise Porous Plaster, is printed on its red tin, and so no one who can read can be deceived by any evasive druggist. The plaster has been tried all across a strip of the caulked so that falling over a fence or from the roof of a barn cannot do any damage there. In putting them on the help of another person is required. The backs should first be rubbed with hot vinegar and red pepper. When the plaster begins to smart and raise you up, great care should be taken that needles, pins or carpet tacks should not be used on it. When the plaster is on, it will give a rolling pin. This takes about two minutes and after a label that plaster will stick by you for the rest of your life. If you live fifty years you will never want another. As to what my porous plaster will do I shall not make any boasts, but I will modestly say:

1. That it will cure a sore throat in two seconds.
2. It will remove a corn while you are throwing a chair at the cat.
3. It will cure rheumatism while you are tracing jackets with a tin pencil.
4. It will knock a stiff knee striking off the toe to the nearest saloon.
5. It will cure consumption unless you are a piker.
6. It will prevent pneumonia and dislocate the doctor.

In my claims of what my porous plaster will do I have confined myself exclusively to human beings. I had not tried it on animals. One day a horse named Eben Jehobaphiah Jones of the state of Kansas wrote to me that he wanted a horse twenty years old that had been blind and deaf for the last seven years. The horse was so deaf that he could not hear the doctor and so blind that he could not find his way to the barn about five times a week. The horse had not been put on his feet for the last seven years. His master, Eben's first, second and third wives and he was keeping him alive out of sentiment. He read of Paradise Porous Plaster, and I ordered him to buy a box of it. He bought two and tried them on the horse. His color was that of a mixture of energy and ambition, thrilling to the sight. He had not been put on his feet for the last seven years. His master, Eben's first, second and third wives and he was keeping him alive out of sentiment. He read of Paradise Porous Plaster, and I ordered him to buy a box of it. He bought two and tried them on the horse. His color was that of a mixture of energy and ambition, thrilling to the sight. He had not been put on his feet for the last seven years.

A man in Iowa writes me that when he had to rock the cradle or to be infant for half an hour at a party. He had had a rugged struggle for forty years.

A woman in Michigan who had had energy enough to sweep the doormat or clean out the cesspool for a long number of years put on the porous plaster to cure a coming deafness not only knocked the deafness out but infused her with energy. She said that on one day she used the broom clear to the handle and another day she swept so vigorously that nothing was left but the sweep when she was done.

The improvements on working a saw are nearly completed, thanks to the efforts of Street Foreman W. D. Smith and Road Foreman O. Pike, who are now doing their best to bring Owensmouth roads up to a better condition than in the past.

Mrs. J. T. Holt and her husband are back from two weeks visit in Fresno.

# NEW SCENERY TO BE USED FOR FIRST TIME ON SATURDAY EVENING, JUNE 16

The Home Economics Department of the Owensmouth High School announce an exceptional program for Saturday evening in the hi school auditorium at 8 o'clock. The music and drama sections of the woman's club and the student body is being installed and will be used in the play to be presented. Those who have heard Miss Roberts on a previous occasion will be delighted to know that she is to entertain the audience again with her reading. Miss Billingsley will give several vocal selections and the hi school orchestra will play a few numbers. The following is the program:

- |   |                         |                       |
|---|-------------------------|-----------------------|
| March Reading   | Miss Hester Billingsley | High School Orchestra |
| Solo—"Springtide"   | Miss Hester Billingsley | Miss Winifred Roberts |
| Reading   | Miss Hester Billingsley | Reinhold Becker       |
| Play—"Ze Moderne English"   | Character:              | Miss Roberts          |
| Marquis De Trouville, an old man with a new language                            |                         |                       |
|   |                         | Edward Williamson     |
| Ralph Random, a young man with an old habit and a new complication in languages |                         | Francis Waring        |
| Mrs. Random, a mother with new troubles regarding an old language               |                         | Miss Dorothy Tweedy   |
| Evelyn Random, a young lady with a new idea of an old language                  |                         | Miss Zulah Bridges    |
| Marie De Trouville, another young lady with a new idea of an old language       |                         | Miss Corinne Clements |
| Tom Fenchurch, a young man with a new enlargement irrespective of languages     |                         | Earl Haas             |
| Solo—"Calling For You"  | Miss Hester Billingsley | Frederic Croton       |
| Reading   | Miss Roberts            |                       |
| Solo—"One Morning, Oh So Early"   | Miss Billingsley        | Scott Gatty           |

## Personal and Local Notes

Everyone else is going to hear Fred W. Prince's Travel Talk on Wednesday, Aug. 20. Mr. Gro. Stokes was taken to the hi school hospital by Dr. Lindsey Thursday for an operation.

Ed Bridges is now employed at the J. C. London store, taking the place of Ben Ross, who is now away. The hi school hardware store.

A baseball game was played between the Chatsworth and Owensmouth grammar schools on June 8. The Owensmouth team won. The players were: Lloyd Carter, catcher; Sam Antes, pitched; Edwin Dicksey, 1st base; Hecm Hyden, 2d base; Armour Trexler, 3d base; Wallace Brainard, short stop; Harold Trexler, left field; Hecm Hyden, center field; G. Beckstead and Walk Mack, right field. One home run was made by Hecm Hyden and a 3-bagger was whaled out by Armour Trexler.

The children of the first, second and third grades of the Owensmouth Grammar School, accompanied by some of their parents, enjoyed a nature study excursion and picnic in Round Valley on Tuesday last. Mr. Giddings kindly sent a truck to carry the children. Mrs. Seasmith, Mr. Craven, Mr. Poulson and Mr. Gschwind also sent trucks to assist in conveying the rest of the party. Mrs. Hyden, Mrs. Brubaker, Mrs. A. Craven, Mrs. Knox, Mrs. Poulson, Mrs. Hale, Mrs. Lindsey

## A TRAVEL TALK

Illustrated by moving pictures and stereoscopic slides will be given by Fred W. Prince, official lecturer for one year, for the Southern Pacific and Santa Fe rail way Companies, entitled "The Grand Canyon, of the Colorado (to Arizona), at the hi school auditorium, Wednesday, June 20, at 8 p. m., under the auspices of the hi school body. It will be highly instructive, entertaining and humorous. Music furnished by the hi school.

Smith, Mrs. Dickey, Miss Metaff and Miss Zena O'Connor accompanied the children.

Miss Jewel E. Rankin was the charming hostess at an evening picnic party on Saturday last at the Round Valley Ranch. A bonfire was built on top of Eagle Mountain and all enjoyed the wicker feast to the limit. The well filled lunch boxes were soon emptied, as the afternoon picnic party was held at the Round Valley Ranch. A bonfire was built on top of Eagle Mountain and all enjoyed the wicker feast to the limit. The well filled lunch boxes were soon emptied, as the afternoon picnic party was held at the Round Valley Ranch.

Whisky claimed another victim on Wednesday when Justice of the Peace Charles A. Bell committed suicide at his ranch home west of town, by taking poison. Deceased was about 55 years old and was a slave to strong drink. A few days ago he was arrested on a charge of committing an offense against Mary Miltenberger, his wife's niece. Bell plead for leniency on the ground that he was intoxicated at the time alleged heinous offense was committed. He was held for trial until he was fixed at \$5,000. Fearing to stand trial he came directly home and took poison. Dr. Lindsey was called, but the fast drug had completed its deadly mission before assistance could be rendered. The body was buried by the Noyes Undertaking Co. Justice Bell was well educated, had a good knowledge of law and might have had a brilliant career but for whisky.

Entered as second-class matter, January 4, 1913, at the  
postoffice at Owensmouth, California, under the Act of March  
3, 1879.

**SUBSCRIPTION:**  
One year (in advance), \$1.50; six months, 75c; single copy,  
OWENSMOUTH, CAL., FRIDAY, JUNE 15, 1917

On another page will be found an appeal for assistance in placing the Red Cross on a war basis. Thousands of Americans will soon be on European battlefields and time should be lost in preparing for any eventuality which may arise. The Red Cross offers an opportunity ALL to render patriotic service to the Nation.

The period of grace allowed "slackers" to register military service under the Conscription Law has expired and Government agents have orders to arrest all defaulters. The penalty is a year's imprisonment, then forced registration. Any person knowing of men eligible for registration should report same to the Government immediately.

Congressman C. H. Randall is the author of the anti-liquor advertising bill ever passed by a United States Congress. The measure goes into effect on the first of July, after which date it will be unlawful for any letter, postal card, circular, newspaper, pamphlet or publication of any kind, carrying advertisements for intoxicating liquor to be deposited in or carried thru the mails of the United States, when addressed to any place in which liquor advertising or solicitation is prohibited by law. Congressman Randall opines that this law will prove most effective blow ever aimed at the liquor traffic.

calculate, as they be exp  
descendants of that race wi  
us our Arabic numerals.

not add to the signature, "My knee"  
The person who presented the check  
was accused of having forged the si  
signature. He declared that he had re  
ceived it from Adele and was so indig  
nant at the fraud perpetrated against  
him that he swore out a warrant for  
her arrest. Her father being absent, I  
was sent for posthaste. Examining  
the check, I saw that she had imitat  
ed her father's signature.  
"Why did you do that?" I asked.  
"Why, I thought I should write it as  
near like papa's would as possible."  
I settled the matter by explaining it  
and giving my own check in place of it.

When Adele's father came home he  
received an apology from the bank for  
having declined to pay the check  
drawn by his daughter, according to  
his directions. The clerk had not  
known that a woman existed who was  
not aware that imitation of a signature  
is forged and forgery is a crime.  
My wife and I have been married for  
ten years, and I do not regret her at  
titude in financial affairs. I take care  
of such matters myself. She has all  
she can do to look out for the children.  
There are many things in her sphere  
about which I am as stupid as she is in  
mine.

## A WONDERFUL DISCOVERY

By M. QJAD.  
Copyright, 1916, by the McClure Newspaper Syndicate.

Three months ago the drug stores of the world opened war on me because of my wonderful medical remedies. These remedies had proved so wonderful in curing all ailments that the druggists found their customers turning from them. A combination was formed against me, with millions of dollars back of it, and threats were made that I would be a bankrupt in six months. I am now going for the druggists in turn, and I have brought forth a wonderful remedy that will shut the doors on many of them. I have combined my twenty-one remedies in the shape of a porous plaster, and that plaster is going to reconstitute the world.

The name, Brown's Paradise Porous Plaster, is printed on its red ink, and no one who can read can be deceived by any evasive druggist. The plasters are fringed all around by a strip of calfskin so that falling over a fence or from the roof of a barn cannot dislodge or damage them. In putting them on the help of another person is required. The back should first be rubbed with hot vinegar and pepper. When the flesh begins to smart and raise up so that no more plaster should be applied. Great care should be taken that no more plaster or other tacks should get over with a rolling pin. This takes about two minutes, and after it is rubbed that plaster will stick by you for the rest of your life. If you live fifty years you will never want another. As to what my porous plaster will do I shall not make any boasts, but I will modestly say:

That it will cure a sore throat in two months.

It will remove a corn while you are throwing a cat at the cat.

It will cure rheumatism while you are trading jackknives with a peddler.

It will knock a stiff knee stiffer than a poker while you are walking forty rods to the nearest saloon.

It will cure consumption while both lungs are gone and your ribs are all caved in.

It will prevent pneumonia and disarrange the doctors.

In my opinion, of all my porous plasters will do I have confined myself exclusively to human beings. I had not thought of curing the animal life when a gentleman named Eben Josaphath Jones of the state of Kansas wrote me that he saved a horse twenty-seven years old that had been blind and deaf for the last seven years. The horse was so deaf that he could not hear a thunderstorm and so blind that it was a common thing for him to walk into the doors of the barn about five times a week. The horse had not been put out of the way because he was the favorite mount of Eben's first, second and third wives and he was keeping him alive out of sentiment. He read of my Paradise Porous Plasters, and he bought two and tried them on the horse. His color was that of a fire red. In one week it had changed to a bright bay. The slight cataract had in less than a month been put on a nice and a purple of \$25 with it. The plasters, which will never come off, give the animal a unique appearance and will serve as blankets in the winter. I have testimonials to show that within an hour after the plaster has been applied the weary fella's mixture of energy and ambition thrills all through her or him. He or she wants to do great things. They cannot sit still, but must be at work. Many of them had to be tied in their stalls to keep them from coming out to dinner.

A man in Iowa writes me that he was so lazy that it nearly killed his wife when he had to rock the cradle of his infant for half an hour at a time.

Within a week after wearing my plaster he slept 500 miles in one day and then came home and kicked a horse that he had had a grudge against for forty years.

A woman in Michigan who hadn't had enough energy to sweep the floor or clean out the coffee pot, for a long number of years put on one of these plasters to cure a coming deafness. It not only "knocked the deafness away" west, but infused such energy into her that in one day she used the broom up clear to the handle and cleaned the coffee pot so vigorously that nothing was left but the spot when she got through.

I could produce thousands more of such testimonials, but it seems useless, try one porous plaster in a community and all will believe. The drug gets will tell you that it is a fraud, but pay no attention to what they say. It costs you only 25 cents to find out whether I am telling you the truth or waiting to sell you a fraud.

Just now I am arranging to ship 2,000,000 porous plasters to the southern states, where the razor backed hogs roam in countless numbers. They

## HEATED FOODS

When we eat fire or animal heated foods they have had all of their action elements used up. After the heat producing part is gone out the nerves change their terminal endings from the inside of the cells into the outside surface of the cells like it would be to change from an apple that has seeds on the inside to an ear of corn which bears the seeds on the outside of the stem.

The purpose of the nerves and cells is to produce seeds or germs. Cells are oval spaces like a leaf of cactus or the oval, hollow space between the joints of a stalk of wheat or corn. It is into these spaces that the gas from the air and the moisture from the earth are taken to be formed into seeds and germs. Seeds that are set on the inside of the fruit are produced from the moisture of the earth and require water in digestion and seeds that are set on the outside are from the gas of the air and require gas or heat in the digestion of food. It is the moisture of the earth coming in contact with the gas of the air that produces red; in the same way that a piece of iron made by being held against an emery stone. Earth forces are propelled around in spirals while gas of the atmosphere is formed by straight lines that are only these straight lines that are discernible by the spectroscope. The circular rays can be felt by the taste nerves, but not visible to the sight nerves.

Now it is these circular, invisible taste rays that destroy the diseases and conditions of the molecules a wabbling to the tune of nature, or health. When people are sick it is because they are out of accord with nature. The circular rays are in and out with nature, that produces pains. You go to a drug doctor to have him relieve the pains and he gives you some dope that puts you entirely out and you say "I don't blame the doctor or that disease."

I don't blame the doctor, but I am bound to not let his family starve. He knows the way you lost your common sense or you'd not be sick; and he knows you've got some money to lose and you may as well lose it for nothing to some one else; and, besides, the possession of money keeps you lying in bed too long in the morning and when you work it is not of the real necessities of mind and gives the brain no exercise. "The brain cells are excited like a rag that was never straightened out."

By the time that you find out what's the matter; and that you have got to exercise and think to keep your cells from rotting you want to turn backward rather than go forward and surmount the difficulties. The dope that don't require chewing cannot make one well. In order to chew it requires saliva. Saliva is produced by laborious muscular exercise, coupled up with thought and understanding of the purpose and outcome from the result.

Force of mind seems to be able to kill out diseases of the flesh, if the brain and nerves have been made strong by exercise. Mind draws on the magnetic substances, foods by understanding how they grow, while wisdom distinguishes only by outside looks. But outside looks are made at the expense of quality.

Muscular action makes mind and mind makes muscular action. Just like potatoes make the seeds and seeds make potatoes. Cold produces the potatoes and heat produces the seeds. The two forces work alternate. Muscle warms the brain through the heat and coolness of brain makes the thought germs develop into muscle cells. Honey produces cold until it is condensed by the cold and expands and gives out warmth.

C. W. DAYTON,  
Owensmouth, Calif.

### ADDITIONAL LOCALS

Squirrel poison at Bechtelheimer's Drug Store.—adv.

Why let your poultry die when a 25 or 50 cent bottle of **Chlorine** will save them. Ask for free booklet. Manufactured by GERMO MFG. CO., Los Angeles. For sale by **Owensmouth Feed & Fuel Co.**—adv.

The buildings of the Owensmouth Feed & Fuel Company are receiving a fresh coat of paint. Several other buildings are to be painted soon, we are informed, including George Hanna's barn, the Hammond Lumber Company's buildings and others.

A happy crowd of little folks helped Joe McDonald Jr. celebrate his seventh birthday June 2. Out under the arbor the children played games and rode the tricycle. The most exciting feature of the day was pinning the tail on the donkey. Velva Trexler received the first prize. Refreshments were served under the arbor with old glory near and the table decorated in red, white and blue. The children parted wishing Joe many happy birthdays. Those present were Ella May Thorpe, Lenor Ross, Verma and Howard Cravens, Francis and Velva Trexler, Atalena Velarde Frances, Joe and Milton McDonald, Allen Beckstead, Glen Hyden Robert Van Dyle, Herbie Taylor, Donald Shilling, Mattie Luce and Bernice Bott assisted in entertaining the children.

### Dust in the Eyes.

Notwithstanding the best fitting goggles automobile tourists are frequently inconvenienced quite seriously by dust to their eyes, and, although it seems impossible to exclude the dust, the subsequent treatment for the abatement of the annoyance is quite simple. A solution of borax in warm water will quickly remove the dirt and may be applied either by means of an eye-cup or by a small vial of cotton, particular attention being given to wiping out the inside of the lower eyelids, where the bulk of the dust will collect. Besides cleansing the eye, this solution will be found decidedly soothing and to allay the natural inflammation.—Scientific American.

### Poor Service.

"Somehow I can never think of a bright thing to say until the occasion has gone by."  
"Same here! My trains of thought are always late too."—Toronto Telegram.

## NOTICE TO IRRIGATORS!

Water service for irrigation is to be for continuous service, night and day, until delivery of the amount applied is complete.  
This is made necessary by the reason that the mains are all designed for continuous flow service and if irrigators use water during the day time only, it necessarily follows that the pipe system would have to be doubled in capacity. Hence, in making application for water, the irrigator will state when he wants his term to begin, and the approximate time at which he desires it to end, always assuming continuous use.  
The foregoing is effective on and after this date.

WM. MULHOLAND,  
Chief Engineer.

When you save anything for sale in Gazette Liners—they are sure to bring results.

## GRADUATING EXERCISES MOUNT OLIVE SCHOOL

**ADDITIONAL LOCALS**

Squirrel poison at Bechtelheim-er's Drug Store.—adv.

The new stage scenery at the hi school will be used Saturday evening for the first time.

Quite a stir was created in business circles this week when Fred Jones appeared before the grand jury with a charge against the Los Angeles Ice Co. of practicing unfair methods in Ovensmouth for the ice last year, others 75 cents up while the prices have now been cut to 15 cents up. C. B. Seasmith is the local agent of the Los Angeles-ice-cern. He states that he is handling the business here on his own account and fixes prices independently of the head office. No definite action has yet been taken in the matter.

**NOTICE TO APRICOT AND PEACH GROWERS**

(Members of Vanomar Producers)

**VANOMAR PRODUCERS TO ASSIST ITS MEMBERS IN HARVESTING THEIR CROPS**

Realizing that the cost of harvesting and delivering the Apricot and Peach crops to the cannery this year will fall a little heavily on some of our members, your Board of Directors at the last meeting, passed the following resolution:

WHEREAS, the cost of picking and harvesting the Apricot and Peach crop will fall heavily upon some of our members, and, whereas, it is the purpose of the Vanomar Producers to assist its members in every possible way, therefore be it

RESOLVED: that advances in cash be made to those members delivering Apricots and Peaches to the cannery. Said advance to be made on the 15th of the month following delivery to cannery.

**CASH ADVANCES**

On Apricots, Grade No. 1	.....	\$20.00 per ton
On Apricots, Grade No. 2	.....	10.00 per ton
On Cling Peaches, Grade No. 1	.....	15.00 per ton
On Cling Peaches, Grade No. 2	.....	7.50 per ton
On Free Peaches, Grade No. 1	.....	12.00 per ton
On Free Peaches, Grade No. 2	.....	6.00 per ton

Your directors feel that the cash advanced per plan outlined will very materially assist you in taking care of the necessary expense to which you will be subjected in harvesting your fruits. The cannery will be in position to handle promptly all fruits delivered and with prospects ahead for continued good prices, we should realize handsome profits for our members from this season's pack.
