

BUY LIBERTY BONDS

Lend Your Money To Your Government

"The time has come to conquer or submit."
"For us there is but one choice, we have made it."
—President Wilson

COME ACROSS OR THE ENEMY WILL!

The great Third Liberty Loan Drive is now on! The campaign being conducted along systematic lines and every person in the United States will be given an opportunity to assist the Government in prosecuting to a successful issue the world war in which we are participating.

The plan adopted for disposing of the three billion dollar bond issue includes the personal solicitation of every person in the nation, by committees of volunteer workers whose services are donated to the cause without compensation of any kind except the reward which always attaches to every patriotic act.

On Saturday evening, April 6, a public meeting was held in the Syndicate Block. Cashier J. L. Waring of the State Bank of Owensmouth presided, he being the local chairman of the Third Liberty Loan campaign.

Rev. W. B. Thompson, pastor of the Little Church in Los Angeles, delivered a most eloquent and patriotic appeal to the people to lend loyal support to the Government in this world crisis.

Several selections were rendered by a quartet composed of Mr. and Mrs. W. E. Bechtelheimer, Mr. and Mrs. N. M. Graham, with Miss Ruth Morris as the piano.

Eight members of the Owensmouth Boy Scouts Troop were awarded medals of honor for selling ten or more bonds of the second issue. Mr. Waring presented the medals with a few brief remarks commending the boys on their noble efforts in this patriotic cause. Those receiving medals were Raymond Orton, Alfonso Knapp, George Burch, Harold Trentler, John Burch, Francis Waring, A. Schilling, and Armour Trexler.

At the close of the meeting nearly \$3000 worth of bonds were subscribed. Monday evening a meeting of the local committee was held at the bank, with Mr. Waring presiding. The territory to be handled was divided as follows:

Calabass, extending from the Kramer store west to Saney—C. B. Seasmith and Judge J. F. Lacoek. From Shoup avenue west to the mountains, between the state highway and Roscoe street—Prof. G. W. Monroe, Mrs. W. E. Bechtelheimer and C. W. Burch. From Shoup avenue to Canoga avenue—Rev. G. R. Graf, J. L. Waring.

From Canoga east to Reseda avenue, south of Sherman Way, to the state highway—W. E. Bechtelheimer, L. P. Mitchell, Mrs. Anna Gallow. From Canoga east to Reseda, north to Roscoe—Dr. L. L. Lindsey, C. W. West, Mrs. E. Morris.

The Chatsworth committee consists of F. O. Hageman, N. A. Gray, C. W. Johnson, and Norman Johnson.

These committees represent the Government in this work and citizens should render them every assistance possible in securing the desired information.

An accurate record of the performance of every person in the United States is to be compiled as permanent record for the duration of the war.

Payments on Liberty Loan subscriptions are as follows: Initial payment May 6.5 per cent second payment May 28, 20 per cent third payment July 18, 35 per cent fourth payment August 15, 40 per cent.

Third Liberty Loan Bonds are ten year Gold Bonds payable 1928 bearing interest at 4.4 per cent. Interest dates from May 9, 1918. Application must be accompanied by a payment of 5 per cent of the amount of bonds applied for or by payment in full. Bonds will be in denominations of \$50, \$100, \$500, \$1,000, \$10,000, and \$50,000. The Owensmouth quota is \$11,900.

TO MORE MEN TO BE CALLED TO SERVICE

Following is the list of names from which ten men will be selected by the local draft board for the quota to be filled on April 28: Russel Johnson, Van Nuy. Martin L. Boyd, Oakland. Rollin A. Wells, Owensmouth. R. L. Housch Jr., Los Angeles. E. C. Richardson, Van Nuy. Thos. O. Walker, Van Nuy. J. C. Dilworth, Van Nuy. Theo Miranda, Chatsworth. R. L. Richardson, Van Nuy. Mr. Tribley Long Beach. Abe Ayers, Mission Acre. M. L. Stevens, Santa Ana. L. B. Young, Chatsworth Res't.

See Condon's patriotic window display.

CHATSWORTH

ANNA M. GRAVES, Reporter.

See "The Yankee Way" at the high school, April 19.

Miss Ellen Rosenhal of Los Angeles spent Sunday with her chum, Mrs. J. A. Graves.

Miss Bettie Hartman of Los Angeles is spending a few weeks with Mr. and Mrs. C. W. Johnson.

Mr. and Mrs. Earnest Johnson of La Habra visited the former's parents for a very short time, last week.

Mrs. McDonald, who is a teacher in Lordeburg, is spending her spring vacation at her home in Chatsworth.

A party, consisting of quite a number from Los Angeles, spent Sunday afternoon on Grandma Johnson's ranch.

Mr. and Mrs. Smith and children of Santa Barbara were the guests of Mr. and Mrs. F. A. Graves and family, for a few days.

A Third Liberty Loan Rally will take place Saturday night, April 13, at 8 o'clock, in the Chatsworth school house. Be sure you come and ask others to come also.

Don't forget about the Epworth League services, to be held by the Sunland Orchestra, next Sunday night, April 14th. Come and bring your friends. Six-thirty o'clock start.

The Red Cross meets every Tuesday at the Chatsworth grammar school. Come and see what wonderful work they have been doing. Every one has a cordial invitation.

The Chatsworth Service Flag is now floating in the beautiful sky across Santa Susanna and Devonshire avenues. This flag has at it fourteen blue stars and the number will soon be increasing.

Mrs. William Live and son, William, and grandson, Lloyd Ruddle, left Thursday for the former's home in Aurora, Indiana. On their way they are visiting in Grand Canyon and relatives in Topeka, Kansas.

On April 23rd there will be a rummage sale and spelling match at the Chatsworth school building. A small fee will be charged for the words misspelled. Refreshments will be 10 cents. Come and invite every one.

Chatsworth M. E. church services every Sunday as follows: Sunday school at 10 o'clock a. m., C. C. Johnson, superintendent. Preaching at 11 a. m. and 8 p. m. Rev. Hugh Pomery, preacher. Epworth League at 7:30 p. m., N. C. Johnson, president. A cordial invitation is extended to all.

L. D. Odell was an Owensmouth visitor on Friday last. He reports that his son, R. U. Odell, who spent the last months here, is now in Maryland, where he is giving instruction in truck driving. He expects to go to France as a member of the U. S. Army Engineering Corps.

Merrick Gehrwil has some excellent postcard views of the Sunrise Easter Concert audience. The cards may be procured at the Bechtelheimer drug store, and a large number of them should be sent to out-of-town friends.

Mr. J. F. Harris is back from an extended visit with friends and relatives in San Francisco.

Lloyd Carder of Inglewood spent the weekend with Armour and Harold Trentler.

Born, April 7, to Mr. and Mrs. Harry Bennett, a daughter, Dorothy Helen.

Home-cooked meals at the Owensmouth Cafe.

E. B. RANCHO MILK IS AGAIN WINNER OF COWETED PRIZE

In the milk contest conducted by the Los Angeles Board of Health, under the state dairy law, in which all dairies selling milk in Los Angeles are entered, the Elliot-Brant Rancho Ewebreed milk again won first in the guaranteed class.

Not only did Elliot-Brant Rancho milk win first in its class but it secured was not approached by that of milk in any class, even those the requirements in other classes are not so strict. But 1.6 per cent was deducted from the highest possible score during the four months the contest was carried on.

Remarkable as this is the score does not fully show superiority of Elliot-Brant Rancho milk over the ordinary, as the butterfat content of this extra food value, to the same extent that points are deducted from milk not up to the standard, the Elliot-Brant Rancho milk would score 106.2 per cent.

The cleanliness of this milk, as measured by the bacteria count is worthy of note. The average count taken weekly of the Elliot-Brant Rancho milk was less than one-tenth that necessary in the class and less than one-fourth as great as permitted by the most rigid requirements enforced anywhere in the United States.

The Elliot-Brant Rancho has won this coveted award five times and each succeeding time has bettered their previous high score.

HAMMOND CO. BOOSTS THRIFT STAMP SALES

The Hammond Lumber Company has inaugurated a campaign for increasing the sales of Thrift Stamps. Each cash customer is requested to accept the stamps in lieu of money in making change.

V. R. Long is very busy arranging a patriotic window display at J. C. Condon's store. The curtain will be raised Saturday morning on one of the most artistic window displays ever seen in the valley.

THRIFT STAMPS ON SALE

War thrift stamps and war saving certificates, otherwise known as Junior Liberty bonds, are now on sale at the Owensmouth postoffice. The stamps sell at 25 cents each. The bonds cost \$4.12 during December and January and are payable in 1923, at which time each certificate will be worth \$5.

War Tax Revenue stamps are now on sale at the postoffice. All legal papers now must carry revenue stamps.

All postal post packages on which the postage is 25 cents or more are required to have affixed a war revenue stamp of 1 cent for each 25 cents of postage.

WANTED—PEOPLE TO PATRONIZE home merchants. See the desirable advertising columns for list of places where you can buy goods at reasonable prices.

WATER IS TURNED INTO NEW CHATSWORTH RESERVOIR

Water was turned into the new Chatsworth reservoir on Tuesday, Chief Engineer William Mulholland, Mayor Woodman and President Robinson of the Public Service Commission, were present at the ceremony. The great basin is now in condition to receive a large quantity of water, and all the surplus from the entire aqueduct system will be stored there for future use. The present plan is to fill the reservoir to the 21-foot level, which means the accumulation of some 8,000,000 gallons of water. When completed, the capacity will be 8,000,000 gallons.

At the Community Church, Sunday, five were united by letter or profession of faith in Christ, making 17 in all, and more are coming. Are you in time with the Infinite? At 10 o'clock Sunday school. Up and singing in Bible study. At 11 o'clock the pastor speaks on living themes right up-to-the-minute, and the choir sings "Hear 'em." At the League contest filled the room. Come and join them. "A home-like church."

John Wit has resigned his position as Star Route mail carrier from Owensmouth to Corral, and plans to enlist in the military service. He has been succeeded by Walter Keilhofer. Bids for supplying this route for the next four years are now being received by the postoffice department. Parties interested may obtain information at the postoffice at Owensmouth, Calabass, Trinito or Corral.

Take your Sunday dinners at the Owensmouth Cafe.

Money from Rich and Poor as Each Can Afford

HELP TO DISCOURAGE ENEMY

BY THEODORE ROOSEVELT
The highest human service is that of the man who offers his life to his country. Next to that comes the service in factory and farm and office, which help to keep the great National machinery efficiently working, and the outstanding and fundamental need, without which nothing can be accomplished, is the need for money; money from rich and poor; money in large sums and small.

I, myself, have invested in these bonds. There is every reason for buying these bonds. The patriotic reason is enough. But here, in addition, there is offered the best security in the world, an investment backed by all the credit of the Government and the people of the United States. We ourselves, we the people, are behind every promise our Government makes because in the last analysis it is we who are the Government. If the security of the Government should fail it would be because we, the people, were in such a plight as no longer to be interested in any security.

Liberty for All Mankind
We have joined the war on the side of Liberty, of Liberty for all mankind to be obtained through the forms of orderly democracy. Long after the war is over, we shall continue in the struggle to achieve liberty and order for all the brotherhood of mankind. To do it effectively we must bind ourselves together as a Nation and there is no surer bond between a man and his country than that he shall be a bondholder of his country. Let us make the "bondholders" and "the people" interchangeable terms. Let us see that this bond issue is a bond issue of the Democracy.

An opportunity is now presented, not merely for a few thousands, but for tens of millions of Americans to give a grand demonstration of their loyalty. By rallying to the support of the United States in this crisis we discourage our enemies and hearten our Allies. To own bonds of the United States—at such a time—as many as each of us can afford is a badge of honor. There should be Liberty Bonds in every home.

"I appeal most earnestly to the men and women of America to lend their money to the Government, and to do it now."

Get on the "firing line for Liberty. Buy a Bond.

Put your dollar in uniform. Buy a Liberty Bond. U. S. means United States. Buy a Bond.

Your words are not as good as your Bond.

Insure your Liberty—don't buy it. Buy a Bond.

Where It Found Safety.

During his first curacy a clergyman found the ladies of the parish entirely too helpful. Such a storm of petty squabbles arose from their overzealousness to help that to despair he gave up the place. Not long afterward he met his successor. "How are you getting on with the ladies?" asked the escaped curate. "Oh, very well," was the answer. "There's safety in numbers." "I found it in Exodus," was the quick reply.—Youth's Companion.

Observation.

An observant man in all his intercourse with society and the world constantly and unperceived marks on every person and thing the figure expressive of its value and therefore on meeting that person or thing knows instantly what kind and degree of attention to give it. This is to make something of experience.—John Foster.

Sponges are known to be abundant in the Australasian seas. Especially is this the case with the horny or highest form of sponges.

GOODRICH TESTED TIRES

Your hiding dollars are traitors to that flag-

Do you remember, even from your earliest school days, the many parades, the soldiers in uniform, the bands playing those stirring marches—and then, along came the flag. How it did thrill you! And how the very love for that flag filled your heart; your eyes became moist; you saw visions of glorious things. You loved that flag; you would fight to honor it—aye, die to preserve it,

IDLE DOLLARS! SHAME!

Drop by drop falls blood, human blood—the warm, healthy blood of a nation, running its course o'er foreign fields to satisfy the battle lust of hate. Dare you allow your dollars to lie idle, while even at this moment, brave American lads offer their blood as a sacrifice—fighting nobly to preserve for you and for me the very foundation of our republic?

Your nation calls and you must answer!

Idle dollars! Shame!

Silver, gold—your very possessions, must be loaned—not given—loaned to the safest institution in the world—your own United States.

If in your veins flows true American blood with its right of "do or die," then march your dollars to the nation's call.

LIBERTY BONDS

Are United States Government Bonds. They bear interest at a rate higher than earned by any other class of Government bonds. They are in denominations ranging upward from \$50 to suit the convenience and the finances of every American who wants to help his country. If you are willing to help your country any bank or trust company will help you by accepting your order and arranging terms of payment without the imposition of any commission or charge for its services.

Any Bank Will Help You

and fire the guns of victory

DELINQUENCY

THE trouble with hiring people or using horses or machines in doing our work is that it encourages larger farming and less fertilizing and skill in producing while hard labor encourages less land and more fertilizer and skill, and the poorer product causes the mind and muscles to become delinquent.

Delinquency is forgetful, disregardful, carelessness, thoughtlessness. The ferment germs which correct these faults are held back in the blood unused, which fills the mind and muscles with decay. Decay fills the blood with the vinegar and alcoholic ferments.

Vinegar and alcohol are the last stage of the air and water forms of oxygens—after the sugar or honey have fermented until they can ferment no more; that means dead, or the end. The end also of reason, wisdom, understanding, and the beginning of borrowed thoughts and acting in haste, the entry into the land of promise.

It is about the same as to keep on cropping a piece of land and in the withholding of fertilizer cannot produce no more. Every crop that is harvested from land should have one-tenth as much put back as fertilizer as is harvested. This would be returned seven fold, by the increased yield.

When the substance is put back it changes from carbon into carbon form, and then the gas cells are reformed, or developed into perfect cells as the former were. Winter separates the cells into the seven ingredients and when spring comes each ingredient or segment gathers up until itself the other six ingredients which are lacking.

We cannot put back the hay and stubble and receive fruit. Hay and stubble produce hay and straw. The one-tenth of the fruit put in the earth makes the fruit. Fruit increases fruit.

Fermentation this oxygen until it is the right consistency to enter the blood. If it is allowed to ferment to the end the oxygen will be all used up. Oxygen is vegetative germs. Vegetate means to absorb water and increase in size. Just the same as any garden plant. Without fertility plants do not vegetate. They produce roughage.

We need roughage to hold the cells apart but unless there is oxygen there is no germs to produce cells.

As the one-tenth of the product of the land is required as fertilizer so the digestive ferment is maintained by adding one-tenth of oxygen and water every day.

If food is delinquent in oxygen it makes delinquency in the ester of it. If you pay your debts they will be paid with a grudge; not as a free will offer. It is better to pay our debts by heavy labor than to receive an income from others. Pay builds the talents, but receiving weakens the talents.

It is better to pay than to receive but if we pay to those who never labored it will not be regarded nor respected.

Each cactus slab I take from a pedegree plant and cure it in such a manner that when it is set out and begins to grow its roots will start before the leaves. By starting roots first the plant will grow and develop on moisture out of the earth; but if the leaves were planted to start first the plant will get its moisture, or sap, out of the air all the rest of its life.

Earth moisture has seven times the food value that atmospheric or gaseous moisture has. The earth moisture produces muscular force and energy while atmospheric gas stimulates old nerves and brain matter instead of producing new reasoning matter. Atmospheric plants quickly turn yellow and fill the blood with uric acid, while the earthy plants retain their green. Yellow is produced by the combining of the red and green because of the absence of life germs to produce cells the same as the yolk and white of a hen's egg can be combined after the shell is removed.

If our food is not formed into perfect cells before we eat it it will be attacked and consumed by disease germs after we eat it; and also because to invest the tissues of the body which may have become constructed of diseased cells. Atmospheric moisture causes fruits to ripen by warmth and decay quickly. I have described in other chapters how fruit should ripen.

Oxygen food enables us to see mistakes before they happen, while nitrogen foods cause us to see only those things which never could happen. It is because nitrogen usps old cells over and over again but oxygen forms new cells. Honey that is ripened or evaporated by temperature that is above 60 degrees is open to the same fault.

Be wary of the cookbooks which advise the heating of any of the oxygens. When we eat a meal of food that contains cooked oxygen we must hasten to eat another meal to offset deleterious effects. Cobaliousness, miasma, nervousness, and all, follow after cooked oxygen.

Not only in the kitchen, but yet in the plants and fruits is cooked oxygen a dangerous element. You will never be "saved" unless you adopt God's way. The cookbooks is the invention of Satan's.

One crop of olives from one tree kept me eating olives every meal for five years, and many meals I ate nothing else besides olives; and I never spent 20 minutes in caring for the tree.

When city people (and the cities have grown so large that there isn't much else) come out into the country they think they know it all; but it is we undertake to show them into the intricacies of killing weeds than they back out and return to the city.

It is these city vampires that don't know what to do with stable and cow manure and tree trimmings except to burn it—and his products are so poor that it burns the flesh. When you write a check on the bank your soil backs it. Anxious to rob, but they are willing to subdue nothing. Subdue means to change from weeds to fruit products—change of the fungi. Weeds ravish soil but the fruits feed the soil by the aid of the better fungi.

Personal and Local Notes

The local exemption board now has 130 of its registrants in the service, 70 by enlistment and 60 by selective induction.

The campaign at the Vanom canney opened Thursday, March 28, with spinach as the pack. It will be about 65 acres of spinach to be handled by the company.

The local telephone exchange temporarily under the management of the Glendale exchange. Marion Reed will have charge of the collection.

The U. S. government has recently issued a bulletin entitled "Caring for Suburban Vegetable Gardens which gives much valuable advice in plotting, preparing, planting and caring for small gardens. A copy may be secured free upon application to Congressman C. H. Rand at Washington.

D. M. Hartough brought to Gazette office this week a barley plant having 66 branches. This show of seed of sowing a limited quantity of seed, as the plants are given room "stool" out and make a more thrifty growth than when crowded. Mr. Hartough has grown many thousands of acres of this in the east, and he uses pounds of seed to the acre, while those of his neighbors sowed 16 pounds. The best crops were always secured with the light seeding. He believes a same principle could be adopted California farmers to advantage, by with grain and alfalfa.

War thrift stamps and war saving certificates, otherwise known as Junior Liberty bonds, are now on sale at the Owensmouth postoffice. The stamps sell at 25 cents each. The bonds cost \$4.12 during December and January and are payable in 1923, at which time each certificate will be worth \$1.

War Tax Revenue stamps are now on sale at the postoffice. All legal papers now must carry revenue stamps.

All parcel post packages on which the postage is 25 cents or more are required to have affixed a war revenue stamp of 1 cent for each 25 cents in postage.

Hi School Notes

GLADYS RIDGLE, Assistant Editor

See "The Yankee Way" at the high school, April 13.

The Freshmen entertainment, Friday, April 5, was enjoyed by all present.

April 19 the Juniors will give their entertainment, "The Yankee Way," with George Walsh as the star character. The play is in five reels, and a dandy entertainment is promised. The admission is 20 and 15 cents. This is the last movie program of the contest, which is the class winning the contest, which is the class who turns in the most net proceeds, will be entertained at a banquet, held April 27, at the high school, and after the other members of the school will come and a general good time will be had.

Monday, April 8, a regular student body meeting was held. The minutes were read and as there were no corrections to be made or any other business, the new business was brought up. Leo Johnson, track manager, has left school. New managers were elected, one for the girls, Jessie Stockstad, and one for the boys, Earl Haas.

May 3 is to be the big track meet day between Owensmouth and Van Nuys, at Van Nuys.

The entertainment committee reported that Ray Hastings wishes to give another organ recital. They have decided to have him on May 17. All those present at his last recital enjoyed it.

The annual debate between the Junior and Senior classes will take place April 28.

The student body is making a drive for advertisements for the annual. This drive will last one week, and if at that time not enough have been received to go on with the annual, it will be dropped for this year, on account of conditions. The students are doing all they can to get more advertisements. About one-third of the money necessary has been raised so far.

The Van Nuys Sophomores and Freshmen played a basketball game against the Owensmouth Sophomores and Freshmen at Owensmouth, 8 to 4. After the game the Freshmen and Sophomore girls served ice cream and cake to the players.

Garden plots, 30x10, have been assigned to the different pupils.

MARIAN NOTES

Mr. and Mrs. E. A. Brainard were in Los Angeles Friday on business.

Miss Florence Harris, who has been visiting in Los Angeles, returned home Sunday.

Mrs. Alice Jeffrey visited her mother, Mrs. F. H. Johnson, in Los Angeles last Friday.

Mrs. Addie T. Bonney of Los Angeles spent the week end with Mr. and Mrs. Showalter and family.

Mrs. R. Tico and master William Randolph are in Los Angeles at Mrs. Tico's mother's, the latter sick with measles.

Mrs. Robert J. Shaw and master Jack returned Thursday from a several weeks visit with Mrs. Shaw's mother in Los Angeles.

Mr. and Mrs. Showalter and family and Mr. and Mrs. W. W. Williams and family of Los Angeles spent Easter at Brent's Mt. Craig ranch.

Medames Baxter, Engesset, McCoch and Jeffrey attended the Woman's Club at Mrs. J. L. Waring's last Wednesday. A splendid Lark Day programme was given, which was enjoyed by all present.

The pupils of the Marian school are doing their bit to help win the war, aside from the splendid gardens which they have, they are supporting a French orphan boy, and

If our food is not formed cells before we eat it, it is attacked and consumed by germs after we eat it; as it tends to invest the tissue body which may have been constructed of dissolved cellular pheris moisture causes ripen by warmth and decay. I have described in other columns how fruit should ripen.

Oxygen food enables us to make mistakes before they happen; nitrogen foods cause us to do those things which never happen. It is because nitrogen is old cells over and over again oxygen forms new cells that is ripened or above temperature that is above stress is open to the same.

Beware of the cookbooks advise the heating of saturated oxygen. When we eat a food that contains cooked we must hasten to eat another offshoot deleterious effects, biliousness, miasma, nervousness, and all, follow after cooking food. Not only in the kitchen, but in the plants and fruits in oxygen dangerous elements will never be "saved," unless adopt God's way. "The cook is an invention of Satan's."

One crop of olives from one acre is eating olives every day for five years, and many more ate nothing else besides olives and I never spent 30 minutes caring for the tree.

When city people (and the cities have grown so large that they aren't much else) come out into country they think they know all, but if we undertake to get them into the intricacies of life, weeds then they back out and turn to the city.

It is these city vipers who don't know what to do with all weeds and tree trimmings except to burn it—and his products are so poor that it builds the flies. When you write check on the bank your soil bank. Anxious to rob but they are willing to substitute nothing. Still slow means to change from wood to fruit products—change of the fungi. Weeds ravish soil but the fungi feed the soil by the aid of the better fungi.

(C. W. DAYTON, OWENSMOUTH, CAL.)
SEE HIS HONEY AND FRUIT BEE

have been doing various things to earn money. Last Saturday the girls met at Mrs. Engesset's for a thimble party. These girls are a jolly working bunch and all reported a delightful time.

Delicious whipped cream cake, wafers, and chocolate were served by Mrs. Engesset and her daughter Marion. Those present were Lucile Smith, Helen and Elizabeth Showalter, Helen Lake, Mary McGeech, Nelda Jeffrey and Marion Engesset.

The price of honey is soaring to the utmost heights, and it is predicted that there will be no more cheap honey for a long time. It is said that many of the large apiaries in Europe have been destroyed by the war. In view of these conditions, the present time seems very advantageous for engaging in the bee business. With abundant spring rains there should be plenty of food for the bees all summer.

An unusual opportunity to procure an ideal location for an apiary is offered near the Chatsworth reservoir. An absent owner wishes to sell an acre of land at a price which is a real bargain. The land is contiguous to vast areas of sage and other wild flowers. Neatly orange groves furnish quantities of bee food. If interested, write or call at Gazette office.
