## OWENSMOUTH TO HAVE SEVERAL HUNDRED ACRES MORE OF ORANGES AND LEMONS

### OWENSMOUTH LAND & TOWN COMPANY SELLS 291 ACRES TO SYNDICATE OF CAPITALISTS

Property is Situated in the Thermal Belt West of Owensmouth, Adjoining the Jepson and Williamson Groves—Export Citrus Fruit Grower Will Have Charge of Development of Tract

Announcement is made of the sale of 291 acres of land in the Owensmouth Land & Town Company's tract west of town, to a syndicate of capitalists who propose to plant the entire acreage to citrus fruit.

The purchasers are Dr. R. S. Cummings, Dr. Harlan Shoemaker, Dr. Geo. H. Woodruff, G. C. Johnson, Frank P. Clarkson, of Los Angeles, and Col. A. B. Shaw of Sierra Madre.

Plans are being made to plant some 60 acres of the land to Valencia oranges and lemons as soon as the ground can be prepared. The work will be done under the personal supervision of Col. Shaw, who is known as one of the most successful citrus fruit growers in the state. His advice is sought by prospective purchasers of

land, by bankers who wish dependable appraisals of orchard lands, and the fact that he has selected the Owensmouth tract as the location for an enterprise in which he has invited his closest personal friends to participate is considered a high endorsement of this locality as a citrus center.

Frank P. Clarkson, another member of the syndicate, was formerly editor of the Santa Ana Daily Blade, which publication was sold a few months ago to the Register of that city, since which time Mr. Clarkson has not been actively engaged in his profession. He makes frequent visits to his newly acquired Owensmouth property and is delighted with the valley.

Mr. Peacock has been engaged as foreman of the ranch and workmen will be employed as needed.

## AMONG OUR NEIGHBORS

About 175 employees have been busy at the San Fernando cannery the past week putting up apricots. So great was the demand for women workers that Los Angeles and other cities were called upon for help.

The fruit is ripening rapidly and coming in in large quantities, keeping the force busy.—San Fernando Press.

The new order of things at the Bank of Lankershim is now in effect and its new president, W. F. McCann, is now in full charge. At the meeting of directors, which are the same as under the old return, Mr. McCann was elected the president and all the other officers continued. The bank is in a splendid flourishing condition and many changes are contemplated to make it a real bank; one in keeping with any of the banks of Southern California.—Lankershim Lankan.

Southern California should hold open house for convalescent American soldiers returned from "over there," wounded or ill.

This was the keynote of an editor-

ial printed in yesterday's "Examiner," and already one Southern Californian has offered to turn over to the Government for the period of the war a completely equipped hotel—the Biskinbeth at Burbank—as a home for convalescent soldiers.—Burbank Blade.

G. A. HUFFAKER, Ford agent at Van Nuys has been selected as distributor for the Fordson Tractor for the San Fernando Valley. These tractors will be on hand at Burbank—a home for a few days. These tractors are a war-time food production and conservation proposition of Henry Ford and son of Detroit, Mich. Write or phone.

## RED CROSS NOTICE

An all-day meeting of Red Cross workers will be held on Tuesday at the library. Ladies are urged to bring their lunches.

Take the Owensmouth Gazette, only \$1.50 per annum.

## Personal and Legal Notes

If you don't register before Saturday evening, July 27, you can't vote at the August primary election.

Merrick Gschwind writes to his parents that he arrived in Gulfport, Miss., safely and is rapidly being initiated into the mysteries of military life.

Street Foreman L. E. Pike is back on the job again after a two weeks' vacation. He has moved his family to Van Nuys, which is more convenient than living in the city and making the long drive twice a day.

At the Community Church Sunday school, 10 a. m., classes for all ages for bible study. At 11 a. m. Rev. D. M. Hartough will preach; hear him. At 7 p. m. the Epworth League for all young people. "A homelike church."

The next specimen of Tetryb bean plant seen this season is an exhibition at the post office. It was grown on the G. W. Burch place and has been irrigated once. The vine contains 300 well formed pods, some of which are nearly mature enough to pick.

Mrs. Wm. Huesler's Sunday-school class enjoyed a hayride and winter roast on Tuesday evening in the hills west of town. Eria Goodall furnished the transportation and drove the team. The evening was so ideal one and all report a most delightful time.

At Pomona 4000 people filled the Greek Theatre and continuously applauded his patriotic address, "The Case Against Germany," which Mr. Powers had originally prepared and given in many parts of the East, co-operating with the Committee on Public Information and the War Council of the Red Cross at Washington.

Superintendent W. F. Hancock of the local water office, reports that there are now 891 services installed in the territory under his jurisdiction. About half these are domestic services, the balance for irrigation purposes. It is estimated that the volume of water used this year will be less than last season, as the beans require less water than the beets.

Mr. and Mrs. T. C. DeCoudres of Long Beach visited Owensmouth friends on Sunday. They were accompanied by Mr. and Mrs. A. P. Hughes and three children, formerly of Barons, Alta, Canada, who are spending the summer at Long Beach. A visit was made at the Bristol Ranch on Chauso avenue, where the members of the party from the north had the pleasure of picking their first apricots and seeing the process of drying fruit for the first time.

Registration for the August primary election closes on July 27.

## MARIAN NOTES

E. A. Beinaud of Mariposa was in Marian Tuesday on business.

Mrs. Gannell and baby of Los Angeles have been visiting Mrs. R. J. Shaw.

Miss Bertha Olin of Los Angeles is visiting the Misses Grace and Josephine Baker.

Dorothy Allen of Los Angeles and Marjory Crowell of Alhambra have been visiting at Mr. Wardena.

Mr. and Mrs. Woodson Smith entertained some 25 of their friends at an Italian dinner Saturday night at the home of Mr. and Mrs. R. B. Smith.

OBITUARY

G. M. Garner was born at DeLoit, Mitchell County, Kansas, Dec. 1, 1873, and died at his home at Marian, Cal. July 20, 1918. In 1888 he moved with his parents to Red Cloud, Neb., where he resided until 1909, when with his family he moved to Artesia, Cal. In 1916 he moved to his present home. He was married to Laura A. Orchard in 1897. To this union five children were born, two dying in infancy. He leaves to two young his late wife and three sons, Clinton, Kent and Stanley, two brothers, E. O. Garner of Artesia, and R. D. Garner of Long Beach, besides a host of friends. He was laid to rest in the Sunnyside cemetery at Long Beach.

CARD OF THANKS

We wish to express our deepest gratitude to our many friends who so kindly assisted us in the sickness and death of our beloved husband and father.

Mrs. G. M. Garner and Family

## FIRST TEPARY BEANS HARVESTED JULY 24

T. A. Chandler has harvested 30 acres of Tetryb beans, the first in the state, so far as is known. The beans were planted early in April and are fully matured.

Several other fields are nearly ready to cut, and threshing will begin soon.

The owner of one of the best located tracts of land in the vicinity of Owensmouth offers same at a price which makes it one of the most attractive buys in the valley.

The land is located at the corner of two main thoroughfares and is suitable for orchard and alfalfa.

Liberal terms will be given on this property and purchaser may have 10 years in which to pay for same, if desired.

For full particulars, call or address Owensmouth Realty Co., 419 Owensmouth Avenue, Owensmouth.

Alfalfa growers, have you ever used lime or superphosphate or both, as a war measure. Your productions can be increased by their use. Hay is King.

## INTERESTING SESSION OF THE CHAMBER OF COMMERCE

Thursday evening's session of the Owensmouth Chamber of Commerce was one of the liveliest meetings in the history of that organization. President Geo. W. West presided.

The domestic water situation was discussed at length and the unanimous opinion was that immediate steps should be taken to remedy the present intolerable condition. It appears that water from the new Chatsworth reservoir is now being supplied the people living west of Mason street. It is understood large quantities of vegetation, refuse, etc., are lying at the bottom of the new reservoir in a decaying condition, and that this is the cause of the filthy condition of the water. At any rate—whatever the cause, the water is vile—smells like a cesspool—tastes rotten. A committee consisting of Mrs. Bechtelheimer, Mrs. Mitchell, Miss Ralph, A. B. Graven, G. W. Burch, W. E. Beckstead and W. H. Allen was appointed to visit the water department officials and demand immediate relief.

W. E. Bechtelheimer resigned as a member of the Valley Citizens' Committee. G. W. Burch was elected to fill the vacancy, with L. P. Mitchell as alternate.

J. L. Waring spoke of the necessity of keeping heavy trucks off the north side of Sherman Way, in order to keep it in fit condition for autos.

The matter of fire protection was discussed and the water committee was requested to investigate the matter.

The question of maintaining the lights along Sherman Way was discussed, but no agreement was reached. Mr. Bechtelheimer referred to proposition made by a committee of city officials who visited the valley last week. It understood the lights can be continued by the payment of 3 cents per lineal foot for all boulevard frontages.

The matter of police service was discussed and the opinion was expressed that the service should be improved.

Two small fires occurred in the Morris hay fields this week, some 18 tons being destroyed. The hay was insured thru the agency of J. L. Waring, who promptly paid the loss.

Hartman, the Van Nuys jeweler, has a watch and jewelry repairing.

OWENSMOUTH, CAL., FRIDAY, JULY 26, 1918.

To neglect to vote is to cast a reproach on true Democracy. Americans enjoy the highest degree of Liberty of any people on earth. The BALLOT is the strongest safeguard of Liberty. Show your Americanism by registering on or before Saturday, July 27, so you can vote at the August primary election.

If we are to furnish the Allies with the necessary proportion of wheat to maintain their war bread from now until the next harvest, and this is a military necessity, we must reduce our monthly consumption to 21,000,000 bushels a month, as against our normal consumption of about 42,000,000 bushels, or 50 per cent. of our normal consumption. This is the situation as set forth by the U. S. Food Administration at Washington. Reserving a margin for distribution to the army and for special cases, leaves for general consumption approximately 1 1/2 pounds of wheat products weekly per person. The Food Administration's statement continues: Many of our consumers are dependent upon bakers' bread. To bread must be durable and therefore, requires a larger proportion of wheat products than cereal breads baked in the household. Our army and navy require a full allowance. The wheat-lovers in our population can make greater sacrifices in the consumption of wheat products than can the poor. In addition, our population in the agricultural districts, where our principal wheat crops are more skilled in the preparation of breads from these other cereals than the crowded city and industrial populations.

With improved transportation conditions we now have available a surplus of potatoes. We also have in the spring months a surplus of milk, and we have ample corn and oats for human consumption. The drain on rye and barley, as substitutes, has already greatly exhausted the supply of these grains.

To effect the needed saving of wheat (and of the average monthly amount purchased in the four months prior to March 1.

1. Homeholders to use not to exceed a total of 1 1/2 pounds per week of wheat products per person. This means not more than 1 1/2 pounds of victory bread containing the required percentage of substitutes and one-half pound of cooking flour, macaroni, crackers, pastry, pies, cakes, wheat breakfast cereals, all combined.

2. Public eating places and clubs to observe two wheatless days per week, Monday and Wednesday, as at present. In addition thereto, not to serve to any one guest at any one meal an aggregate of breadstuffs, macaroni, crackers, pastry, pies, cakes, wheat breakfast cereals, containing a total of more than two ounces of wheat flour. No wheat products to be served unless specially ordered. Public eating establishments not to buy more than six pounds of wheat products for each ninety meals served, this conforming with the limitations requested of the householders.

3. Retailers to sell not more than one-eighth of a barrel of flour to any town customer at any one time and not more than one-quarter of a barrel to any country customer at any one time, and in no case to sell wheat products without the sale of an equal weight of other cereals.

4. We ask the bakers and grocers to reduce the volume of Victory bread sold, by delivery of the three-quarter pound loaf where one pound was sold before, and corresponding proportions in other weights. We also ask bakers not to increase the amount of their wheat flour purchases beyond 70 per cent.

## VALLEY PLEDGES BIG SUM FOR W. S. S.

Total	.....\$85,565

**He Mapped Japan.**  
The first man to make an accurate map of the Japanese empire was a native named Ino Chuke, born in 1747. His early trade was that of a brewer, which he followed until 1800, amassing a fortune.

He then asked permission to make a map of the island empire at his own expense, and, his request being granted, the task occupied his best efforts for eighteen years. He had thirteen assistants, and the results were incorporated in fourteen volumes. All instruments used were of Chuke's own design and construction.—East and West News.

**Speaking Sixty.**  
"I'll demand a jury trial," declared the lawyer.  
"Perhaps it would be better to request it in a polite manner," suggested his feminine client. "I fear I'm a little guilty."—Louisville Courier-Journal.

## THE BOYS IN KHAKI

Robert Brant is now a member of the U. S. Naval Reserve.

Robert McIntyre, formerly employed at the E. B. Rancho, has enlisted in the U. S. Naval Reserve.

A. H. Allen, who spent several months at the L. C. Kimball place, has shipped as third steward for a four months trip on the U.S. Transport Sherman.

Camp life is not all routine work and the soldier boys enjoy an occasional outing. Ralph Goodall writes from Camp Colt regarding a recent trip to the National Capital. "We started about 1:30 and got into Washington about 5:15, after traveling thru some of the beautiful Pennsylvania and Maryland country. We think we have some beautiful country in California, but it is only in spots, but here it is beautiful everywhere. Everything is so green here I cannot realize it is the middle of July. I also thought we had some beautiful cities, but Washington comes along and slips one over on all of them for us. . . . I first tried to get a room at a regular Y. M., but they were full, so they sent me down to the Y. M. Liberty Hut, an old Billy Sunday tabernacle partly topped off and fixed up for the purpose. They have about 400 cots that they charge 20 cents a night for."

It certainly was a cosmopolitan bunch—on my list a couple of marines, on my right a sailor, and back of them an engineer. (The next day was spent in sight-seeing, the return to camp being made in the evening.) I guess I am getting fat. I know I feel better and am in better physical condition by far. I am getting so I can't sleep late of a morning. I tried it Sunday, but could not do it.

## THE TERM "CALORY."

By It Is Measured the Heat Giving Quality of Our Food.

Calory is a word so much used now by physicians and writers upon diet that there is no excuse for any one who does not understand what it means. The dictionary definition of the word calory is: "One of two recognized units of heat, of which the 'greater calory' or 'kilogram calory' is the amount of heat necessary to raise one kilogram of water one degree C; the 'lesser calory' or 'small calory' being the amount of heat necessary to raise one gram of water one degree C."

Calory, then, is a measure of heat. The human body may be likened to a furnace, and the food that goes into it to the fuel, for this, in fact, is exactly what it is, as it supplies the body with what enables it to keep up its heat. So the heat giving quality of our food are measured in calories.

There are 100 calories in twenty-two ounces of lettuce (three good sized, firm heads); in one ounce of oatmeal; in one ounce of white flour; in one ripe banana; in one ounce of beans; in two tablespoonfuls of brown sugar; in one and a half ounces of beefsteak; in half a pound sweet potato; in one orange; in five ounces (about three-quarters of a tubful) of milk; in one ounce of butter or nut-margarine; in one ounce of mince pie an inch wide at the thick end; in a slice three-quarters of an inch thick from a five cent loaf of whole wheat bread.

An average man, weighing 150 pounds, leading a sedentary life, needs about 2,500 calories per day. The same man doing moderate physical work needs 3,000 calories; doing strenuous outdoor work he needs 3,500; resting in bed or lounging all day in a chair 2,000 will suffice. Of these a certain amount must be protein. (Opinions differ so widely on what percentage should be protein and the many kinds of protein differ so widely in their digestibility, their assimilability, their value as tissue builders and their palatability that it is impossible to go into that matter here. It may be said roughly that from ninety to 100 grams—say three and one-half ounces—of protein should be taken every day.—Exchange.

**Nigerian Funerals.**  
With Moros people, on the death of a chief, his son (or heir, if he has no son), must provide a mare, which is led around the assembled guests by a laughing woman, who is dressed up for the occasion. It is absolutely necessary that a mare should be obtained for the funeral (should the heir neglect to do so the ghost of the deceased will never give him any peace), and she must be sold afterward; if not, she will die. Why the woman should have to be laughing is past comprehension.—London Standard.

**Card Playing.**  
Card playing began in India in the ninth century. It was introduced into Europe by Orientals some time prior to the thirteenth century. Saracens popularized the amusement in Spain and Italy. The taste for the game afterward spread to Germany, where it commenced to be indulged in about 1878. Its appearance in France was mentioned in the records of that country in 1393. Heraldic cards were first known in England in 1660.

# Montaville Flowers for Congress

The voters of the Ninth District have long waited to secure a man for congress whose ability, experience and patriotism represent the intelligence, material interests and loyalty of its people. Such a man is Montaville Flowers, of Monrovia.

Republicans must get behind a single candidate—or meet defeat at the polls. Here is the man who can win. The great mass of voters already realize it. His campaign is growing hourly. At least one hundred thousand voters will see him and hear him speak.

Convincing proof of his qualifications will be placed in the hands of every voter in the whole District. You, as an individual voter, can help to crystallize this sentiment quickly. The word is already being passed around—"Flowers is the man! Don't split the vote! One man—the strong man—and success at the Primaries."

### Political Advertising

Montaville Flowers' campaign for congress is meeting with success far beyond expectations, according to information supplied by his campaign manager. Immense audiences have gathered at many of the larger cities in the district to hear him speak, and it is said that before the date of the primaries Mr. Flowers will have addressed more than one hundred thousand voters. At Claremont, Monrovia, Pasadena and other points, the enthusiasm surrounded Mr. Flowers when he had finished, pledging their support and giving evidence of the great enthusiasm.

### SPEAKER CLARK AFFIRMS LOYAL WORK OF RANDALL

Washington, July 24. —Speaker Champ Clark today sent the following telegram to Los Angeles political leader: "I hope that no one in California will be deceived by opponents of Congressman Randall in the coming election, who claim that he has voted against war measures. He has actually and consistently supported the war program of the administration ever since war was declared, and he has loyally stood by the present organization of the House of Representatives."

# LATEST REPORT ON WATER SITUATION

As we go to press word is received that the city chemist pronounced the water submitted by the Owensmouth committee to be perfectly harmless so far as disease germs are concerned. He is reported as saying that the foul smell and vile taste are characteristic of water from near reservoirs.
