

GREAT BEAN HARVEST IS ON

Vanomat Producers Have 100,000 Sacks Stored

Owensmouth Has a Wonderful Future Before Her

F. A. Orton, of the Vanomat Producers, is having the busiest time of the season just now. The Gazette man was shown through this establishment this week and made to realize that a volume of business is going on in this part of the valley among the bean growers and the storage people.

One of the warehouses with a floor space of 100x200 feet is now sheltering over 100,000 sacks of beans. The office warehouse is about 100x110 feet is filled almost to the limit. Every machine in operation and twenty men are employed in the buildings.

There are over \$500,000 worth of beans now in storage with more coming in daily. These beans were raised within a radius of four miles of Owensmouth. Over half of the beans are the tepey variety while the rest the famous Henderson bush lima.

Mr. Orton is very enthusiastic over the future outlook in the valley. "This valley has every condition for unlimited production," he said. "We shall not only need more warehouses but pecking houses. There are hundreds of acres of orange groves just coming into bearing and Owensmouth must prepare to take care of the product."

The Marian Milling Company has begun operations and The Gazette will have something to say from Marian soon.

BRANDS OF BEAUTY.

Dr. Sumatra a Lady With Front Teeth Is an Ugly Duckling.

It is amazing how ideas of beauty vary with latitude and longitude. In India the professional beauty loves to appear with golden teeth, in Paris a lady in a red nose will pass so long as it is not eventually poking itself into other people's business.

In eastern countries red hair and warts are in the same category, but coming west as far as Conditon, Ore., where red hair is very uncommon, we find it just as greatly admired and henna used to make it red, if it isn't. In England "red hair," as it is called, is greatly admired now, and any woman novelist who wants to be among the "biggest sellers" must give her heroine Tinted red hair.

Yet in Africa a crop of the blackest, curliest, closest hair imaginable makes a girl the belle of the kral, especially if she be plump with puffy eyes, thick lips, a nose like a rubber shoe and a skin that shines like a cooking stove.—London Chronicle.

Be Your Own Doctor

Miss Agnes Ralph of the high school faculty, has placed on exhibition in the postoffice a sample influenza mask with instructions for making the same. Our Governor says it is imperative that all persons wear them. As a precaution we are urged to use this which guards mouth wash: Take 1 teaspoonful baking soda; 1 teaspoonful of salt; 10 drops of eucalyptus oil; 2 tablespoonfuls of listerine; 2 tablespoonfuls of hot water; use this with hot water half and half. Also use carbolyzed valine freely in the nostrils.

LATE LOCALS

Congressman Randall will be in Owensmouth next Tuesday afternoon.

Ralph Goddall writes his parents that he is now in quarantine for the measles.

Miss Elizabeth Delaway is visiting her parents at Moorpark for a few days.

Mr. McKinney of the McKinney Canning company of Los Angeles, was a caller at the home of L. P. Mitchell on Tuesday.

The Gazette building is to be repaired, remodeled and rearranged soon for the convenience of the public both in the postoffice and government department.

Over 65 men are employed on the Chatsworth dam. The huge concrete wall is being built ten feet higher and 20 more men are needed at once. The reservoir covers about 160 acres and some excellent duck hunting is reported.

The United States will return to standard time for the winter at 2 o'clock a. m. Sunday morning, October 30th. At that hour all clocks will be turned back an hour under the daylight saving law. On the last Sunday of next March the change will again be made when clocks are to be moved forward an hour.

Mrs. Anselv, wife of C. F. Anselv of this place, and small son, Eldon, and Mrs. W. E. Husted, her mother, visited Mr. Anselv Tuesday. Mrs. Anselv returned to Corona, where she will look after property interests. Miss Loreen Anselv returned with her mother. They will return to Owensmouth about January 1st, and make this their home.

The Riverside road suit which has been on trial in the Superior court since September 30th, has been postponed until November 6th. The county has three suits in condemnation for three different road surveys through the canyons back of Calabasas. The Ridge estate is putting up a hard fight to defeat it as it will involve upwards of a half million dollars of private property enclosed in the large ranch. The settlers about Cornell will be benefited by the road as it will open transportation connecting the State highway with Santa Monica boulevard.

COMMITTEE GIVEN PRAISE

Owensmouth Merit Than Doubles Her Quota

Every Town In the District Went "Over the Top"

There is nothing to be regretted for the work and results of the committee for the Fourth Liberty Loan drive. J. L. Waring, chairman of the committee, is gratified, not only for what the committee was able to accomplish, but for the hearty financial response made by the people everywhere.

Owensmouth had a total of 691 bond subscriptions with a sum total of \$53,750.00, while the quota was \$26,150.00. This awards Owensmouth with two more stars in the honor flag. The total figures for the different towns are as follows:

Marian, two stars, quota \$3,000, raised \$6,400.
Chatsworth, three stars, quota \$5,000, raised \$13,000.
Calabasas, one star, quota \$5,000, raised \$7,600.
Zelzah, three stars, quota \$3,900, raised \$8,000.
Owensmouth, two stars, quota \$26,150, raised \$53,750.

LATEST NEWS

Fire consumed a small barn near Joe McDonald's place last night and created much excitement among the people. The loss was nominal.

A heavy truck loaded with beans lost a rear wheel in the Chatsworth front of Mr. Weg's store yesterday when the driver was trying to pass in front of an electric car.

Homopathy. Homopathy is a theory of medicine promulgated by Dr. Samuel Hahnemann (1758-1843) of Leipzig in 1810. It asserts that any disease should be treated by medicines in minute doses that would produce in a healthy patient symptoms similar to those manifested by the disease requiring treatment. This is the principle of "like diseases are cured by like remedies" (Latin, similia similibus curantur) and is based on the theory that two similarly diseased conditions cannot subsist in the same organ at the same time.

Clasp Tails as They Pass. Among the peculiarly tall fishes the sea horses are alone in having the tail prehensile. With it they anchor themselves to seaweed and other things in strong currents, for they are poor swimmers. As two of these interesting creatures meet they may clasp tails for a moment and then pass on as if they had whirled each other well.—London Spectator.

Child Suffers Broken Leg

Marshall Condon, five-year-old son of Mr. and Mrs. J. O. Condon, suffered a compound fracture of the left leg between the ankle and knee Wednesday afternoon. A few of his playmates had gathered and were having a good time on a slide bank erected in the back yard. Raymond Flenk, a cousin from Los Angeles, is visiting at the Condon home, and being somewhat heavier in weight, took his turn next after Marshall and before the unfortunate lad could get out of the way he was struck.

There being no physician at this place, Dr. C. B. Canby of Van Nuys, was called. He reduced the fracture but was obliged to take an X-Ray. The patient is doing fine but all activities on the playground will cease for a month while Marshall keeps in bed.

SEARCHING A MAN'S RECORD.

How the Surety Companies Protect Employers and Themselves.

In an article entitled "What Men Would Be Let On Their Behalf," Hon. E. in the American Magazine, Fred C. Kelly says: "The surety companies now relieve individuals of embarrassing bond signing and protect employers against loss through dishonesty of employes in much the same manner that insurance companies guarantee persons against loss by fire.

"In surety, the surety companies must make their work profitable to themselves. They must take in more money in premiums than they pay out in losses. In other words, they must be able to tell in advance that the majority of persons who bond will remain honest. And how is that to be done? How is one to tell an honest man? What are the advance clues to possible dishonesty? If every employer and every person dealing with human beings knew these things it might be a great help.

"The man who changes his job too frequently bears looking into. Perhaps he is being changed to keep outgrowing his position, and getting something better each time. But, on the other hand, he may have changed for some distinctly other reason, which one is entitled to know before trusting him too far.

"A surety company usually has an applicant give a list of all employments for several years previous. If he has been in business for himself part of that time he is asked to give the dates and places, and those are carefully verified. In case the dates do not all check up properly and there appears to be a dark period or episode that the applicant is trying to cover up, this detail is, of course, investigated.

"Where there is no gap in a man's employment record—that is, no period of his life when he was not following some occupation and giving satisfactory service—he is probably a reasonably good risk."

Notice

On account of the influenza situation we require monthly Farm Bureau Center meeting to be held at Chatsworth, October 24th, will be cancelled. Be sure to attend the annual meeting of all members in the county at the Fair, Exposition Park, October 31st.

S. E. GODDALL, Director.

SCHOOL NEWS IN BRIEF

Short Local Items of General Interest

HIGH SCHOOL

Acting Superintendent Monks has announced that all pupils of the high school will be expected to work at their studies four hours a day during the enforced vacation. Examinations will be given on the home work as soon as the school reopens.

The following outlines are assigned to Miss Ralph's classes: Chemistry—Chapters six, eight, eleven and twelve; two days' study on each chapter.

English Literature—Chapters four and five; three days. Chapter six, six pages a day.

General Science—Chapters four and five, from six to eight pages a day. Study all text carefully, read experiments with the expectation of performing them when school reopens.

Mediaeval and Modern History—Write out a brief synopsis of the present year in the progress of the study by daily. Study the following topics from any available text: Invasion of Charlemagne's empire by the Hungarians. The formation of the "Stem-Duchies." The reign of Otto I. The struggle over the right of investiture. (Hildebrand, Henry IV, Henry V.)

The high school building is being made ready for winter weather. The foundation on the north side of the building has been reinforced, and the basement is to be made waterproof.

The first program in the entertainment course which was postponed on account of the closing of the schools, will be given later at a date to be announced. Those who are fortunate enough to possess season tickets may use them just the same for all programs when given. The less fortunate ones will still be given an opportunity to buy season tickets.

GRAMMAR SCHOOL

Owing to the fact that the date for the opening of school is uncertain, all of the children of the elementary school is asked to keep up their studies at home so far as possible. School books may be obtained from the principal, St. Bradley, and, although no definite assignment can be made, the children are asked to go ahead, doing all written and oral work asked in the books. All written work should be handed in at the opening of school, and the oral work should be done carefully, preferably to the parents or an older pupil.

In arithmetic, special attention should be given to the fundamental operations, addition, subtraction, multiplication and division, using integers, fractions and decimals according to the grade. Speed and skill in these helped during the vacation will gain materially at the opening of school.

In geography and other subjects the work should be continued, and be upper grade children are asked to pay special attention to history and geography of the war.

The notice of the opening of school will be announced in the newspapers.

Read The Gazette for the latest valley news.

Victory is Within Our Grasp!

Don't jeopardize our success now by letting up. FOOD IS LIFE. They need it "Over There" and it must be sent from here, is the latest official slogan sent out by the United States Food Administration. Let us show our loyalty.

DON'T STOP SAVING FOOD!

THE OWENSMOUTH GAZETTE

(Established 1912)

Published every Friday afternoon by ROBERT M. LAUBACH, Editor and Proprietor. Entered through the Postoffice as Second-Class Mail Matter January 25, 1912. Owensmouth, California under the Act of Congress, March 3rd, 1879.

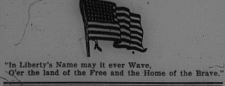

SUBSCRIPTION RATES IN ADVANCE (One Year) \$1.00 (Six Months) .60 (Three Months) .40 Single copy .10 (Mailed to any address at above rates)

When ordering address of your paper changed, always give distinctly the old address as well as the new also verify the name of the postoffice, county and state. If you fail to do this we cannot be held responsible. We do not forget to mail subscription receipt and see when you get your paper.

The Gazette solicits communications, news letters and articles for publication. All such should be addressed to the editor, and mailed in time to reach the office no later than Wednesday noon. Items of local interest gladly received. We urge upon whoever you can, that you will try and co-operate with the newspaper.

The Gazette aims to be a clean, live newspaper, full of fresh home news and an opinion of its own. The Gazette takes an independent stand in politics, business and religion. It will never tie to a clique or faction, nor be prejudiced against any individual or group.

ADVERTISING RATES MADE KNOWN ON APPLICATION

In Liberty's Name may it ever Wave Over the Land of the Free and the Home of the Brave

The Gazette's New Owner

With this week's issue of The Owensmouth Gazette, there is a change in the proprietorship. The new owner and editor is not a stranger to most of the citizens of the town and vicinity, for it was his happy privilege to print the first Gazette that was published in Owensmouth. The paper was started six years ago next December and christened by H. J. Whitley, after the Holocene (N. J.) Gazette, established many years ago by Thomas J. Whitley and Horace Greeley. It was the first paper with which Mr. Greeley was associated. Thomas Whitley was an uncle of H. J. Whitley, and was eminently successful as a publisher.

For over a year the new owner was editor and manager, during which time his editorial pen received some inspiration from the environment of the garden valley that spreads about Owensmouth to the fertile foothills of the mountains.

Those were considered early days when vicissitude and anxiety lay close to the threshold of the ambitious pioneer, yet the surprise of his hope had already dawned, for the grand Sherman Way boulevard and the Pacific Electric Railway line were finished, and on the opening day, when Owensmouth was officially put on the country map the first electric passenger car was run into town amid the cheering crowds and the display of flags and bunting. It was on this memorable day that the first issue of The Gazette made its modest bow to the public. Mr. Mithell has edited the paper for over four years.

The "new man" re-enters the newspaper field with a "faith that removes mountains"—faith in Owensmouth, The Gazette and the great valley, which is rapidly developing into an empire of wealth and progressive industry.

The Gazette will be absolutely independent in politics, business and religion.

The Gazette is delighted with the report coming from Owensmouth and the valley towns on the success of the Fourth Liberty Loan. Moreover, we are proud of the 100 percent spirit of patriotic loyalty that has prompted each one in obligating themselves to meet the financial demand of the Government. Figures elsewhere give an account of the different stewardships. No a district failed in going "over the top" early in the drive. This is the way we "fight at home," and there are more funds where the last came from.

The Kaiser is a diligent student of the Bible of late. No doubt he has already read the passage: "The way of the transgressor is hard."

Sparing News Print Paper

The Gazette feels that it would be unpatriotic to use more print paper than what is actually necessary to carry the news into the home. It is a Government request. When the demand comes that the news calls for a larger paper we shall not hesitate to increase the size of The Gazette. About 200 newspapers, some old established publications, have "gone to the bottom" of the commercial stream lately, falling in the fight of "sink or swim."

To Our Editorial Friends

Here is a hand-shake to our editorial friends—the faculty of the country press. We have been out of active newspaper work for quite a few years, consequently we feel the need of "brushing up" at "pushing the quill." Five years ago we bid goodbye to journalism; it was a severe divorcement—a cruel attempt to kill every root and branch of the editorial tree. We did not succeed and the literary microbe broke out anew.

We believe in conservation as a patriotic duty, but not in phonetic spelling. In these critical war times we need all the good plain English we can get. If you see anything wrong with our literary frock, do not criticize us too severely; just let us where the misfit is and we will try and readjust the fabric.

"Think of the nation's pledge to save and export 17,500,000 tons of food by next June 30th. Let us all consider our personal responsibility in doing our part conserving by strictly abiding by every rule laid down by the Food Administration.

The desire for "grat" and "fat jobs" has created a thousand evils in politics. Let us regard the political office as a something to do, not something to get.

Now that the Liberty Loan drive is over, let the politician get busy with his political plow; there is a lot of ground to be turned between now and election day.

Speaking figuratively, the most minute size tack hammer can literally kill a town by knocking. Don't let us even carry a toy hammer.

The House is taking a recess for a month, after which the senate is expected to pass the eight billion dollar revenue bill.

More than 2,000,000 American soldiers are now overseas, and the good work has only just begun.

OWENSMOUTH FIVE YEARS AGO

(Items Republished from The Gazette) Fred Leiser has just received a car load of coal for commercial and domestic orders.

Anderson & Murdock are the contractors for building the \$40,000 grammar school house.

W. P. Parmentier of Chatsworth, took first prize Plymouth Rock exhibit at Riverside fair last week.

The Edison Company has a representative in Owensmouth soliciting contracts for store, office and house lighting. The lights in the townsite will be tested out within a few days.

The bank furniture has arrived and will be installed as soon as the interior finish is completed. Owensmouth may feel justly proud of her handsome new bank soon to open its doors.

Tall timber poles for telephone and light are all set between Owensmouth and Van Nuys, and a crew has the wire strung to this side of Marion. The iron posts are all in and the under-ground equipment is being installed.

REMINISCENCE IN FEW WORDS

When The Gazette was established, Owensmouth had no bank, no barber shop, no drugstore, no hardware store, or harness shop. School was held in The Gazette building. The Synagogue block was not completed and the Southern Pacific company had just finished its passenger depot. The water supply came from a deep well put down by the Suburban Homes Company near the railroad track. Joe McDonald was engineer at the pumping station. W. E. Bechtelheimer was the druggist at Van Nuys, and Fred Balster kept a meat market in the same town. Otto Schwind and Mrs. Gallow are the two pioneers in business. W. B. Hyden, hardware merchant, was book-keeper for the Woods Lumber Co.

THE AMERICAN'S CREED

I believe in the United States of America as a government of the people, by the people, for the people; whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign nation of many sovereign states; a perfect union, one and inseparable; established upon these principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes. It is therefore my duty to my country to love it, to support its Constitution, to obey its laws, to respect its flag, and to defend it against all enemies.

HOME NEWS IN BRIEF

Social and Industrial Life in Owensmouth and the Upper Valley

Owensmouth is quite free from influenza.

Bring in the items when you think of it.
Duck hunting is prime so say the hunting sports.

Beam Hyden has been on the sick list this week.

Save the fruit pits. The Red Cross wants them for use as needed.

Philip Wintz has twenty acres of orange grove with good promise for a heavy yield.

A professional birdman gave a few half-hour stunts over the town Tuesday.

Mrs. Gallow has recently added 12 more stars to the service flag, making a total of 36 for the flag.

The California Liberty fair is announced to open Saturday on the 26th at Exposition Park, Los Angeles.

The county treasurer refuses tax money only by check through the mail. This is during the quarantine.

Are you a subscriber to The Gazette? We want every home, in Owensmouth and the upper valley included.

Rev. T. H. Lewis, the newly appointed pastor for Owensmouth, will also have Zetah included in his pastoral work.

Althea Poulsen lost the nail of the third finger on the left hand Sunday. It was caught in the door of the auto making a painful wound.

Next Thursday night is Halloween. Watch for the jack-lanterns, hobbegoblins, black cats and witches, merry accompaniments of fun for the occasion. Anchor your gates and sign boards and be on the safe side.

The Standard Oil Company will develop 494 acres of oil lands in the Rancho Ex Mission de San Fernando, west of San Fernando under the terms of a lease given by the Mission Land Company.

George Moore of the Adamson ranch took a strychnine capsule for a cold Wednesday morning by mistake and it nearly cost him his life. Dr. Canby of Van Nuys was called and succeeded in bringing him out of danger.

The Red Cross met as usual on Thursday at the library headquarters. There were fifteen in attendance and many good things were accomplished for the cause.

The annual election of officers will take place on November 5th.

The Boy Scouts, who worked in the Fourth Liberty Loan drive all made good. Seven of them raised a total of \$5,750.00. Francis A. Waring sold \$2,000 in bonds, leading the list. Harold Trexler, \$550; Bert Booker, \$550; Arthur Trexler, \$600; Elmer Hyden, \$600; John Burch, \$650; Raymond Orton, \$800.

The Gazette commences the advertisement of the Marian Milling Company this week and we feel highly pleased that an establishment like this company recognizes The Gazette as a paying medium for reaching the public. G. F. Kelly, President, is well known in Owensmouth, for his success with the Vanomer Producers.

There are shelves of good books in our home library where the reader may "browse" with content. Mrs. Gallow, the Librarian, is putting her best effort into the work in her to widen the field of opportunity to as many patrons as possible. A desire for wholesome reading is essential, not only as a diversion in books, but for more exact information and investigating contact with ideas.

Good weather for threshing beans.

The Calabasas school, Miss Edith Haas teacher, closed last Tuesday until after the quarantine.

Sergt. Clifford Bridges is now in France. Those desiring to write to him address the 374 Infantry, A. E. F. A. P. O. 776.

The Pacific Electric expect to inaugurate a service of extending the crowds attending the big Mardi Gras celebration at Venice on Halloween, Thursday, October 31st.

The food "drive" scheduled by Washington for October 28th and November 2nd, has been postponed throughout the United States until a later date, perhaps December 1st, because of the "flu."

The Woman's Club of Owensmouth is preparing a Halloween program for next week, with a hope of holding the meeting at the home of Mrs. G. W. Monroe. Unless the quarantine is lifted there will be no meeting.

This has been the busiest week of our life without exception. It is no small job to readjust and establish a business into new hands and then get the paper to press on time. If The Gazette is not up to the standard, there is no shirk on our part.

Mrs. E. Morris, president of the local Woman's Club, wishes to call the attention of the membership that the subscription to the "Club-woman" has been reduced to 25¢ every household. It may be renewed promptly or discontinued by order of the Government.

Miss Ruth Morris, daughter of Mrs. E. Morris, who went to Gulfport, Miss, to take a course in military training with the Red Cross, is reported recovering from a serious sickness of influenza. She expects, after recovery to receive an official appointment and will drive a large "Cole 5" ambulance car.

The sugar beet season for 1918 is near the close in San Fernando valley. There were over 3000 acres planted to beets in the valley this year. From reports of beets shipped and an estimate of those still in the fields, it is thought that the average tonnage for the valley this year will run close to 11 tons to the acre.

PERSONAL MENTION

Mr. and Mrs. H. J. Walters and daughter spent Sunday with Mr. and Mrs. Charles Galloway.

Mrs. F. A. Buelow of Los Angeles, has been the guest of Mr. and Mrs. O. P. Thomas for a few days.

Lucile West, aged six years and daughter of Mr. and Mrs. George West, was injured Wednesday by heavy lifting.

Mr. McClintock, Mrs. F. Kincaid and son, Aubrey, Mrs. James Gunn and Mrs. H. W. Hoagland were week end guests at the home of Mr. and Mrs. A. C. Trexler.

Robert and Viola Penland of Santa Ana, brother and sister of Mrs. A. Poulsen, were guests of the Poulsen family Sunday. They dined at the Chatsworth hotel.

A. M. Barnard of Santa Monica was over Wednesday calling on F. C. Orton with the Vanomer Producer. He is quite an extensive grower of lettuce and has about hundred acres at present for eastern shipment.

Beasley of Poisoners.
Arsenic has perhaps been more frequently used than any other poison for criminal purposes. It has been proved identical with the "poisonful alibi" of the seventeenth century, when secret poisoning became so frequent in Italy. Then young widows were abundant in Rome, and most of the unhappy marriages were speedily dissolved by the death of the husband. A secret society of young matrons was discovered, which met at the house of La Spara, a reputed witch, who supplied them with a slow, tasteless, colorless poison, carefully calculated to kill a husband in just the time that suited the purchaser. La Spara and thirteen of her companions were hanged, a large number of the culprits being stripped half-naked through the streets of Rome, while others of the highest rank received with heavy fines and banishment.

THRIFT OF TIME.
Time is too precious to be wasted. Believe me when I tell you that thrift of time will repay you in after life with a surfeit of profit beyond your most sanguine dreams and that the waste of it will make you dwindle alike in intellectual and in material stature beyond your darkest reckonings—Gladstone.

Take your shoes and harness to the Electric Shoe Hospital for repairs.

\$25.00 REWARD
for information that leads to finding who steals my bees and honey. Reports hints held confidential. Someone took a hive of bees about October 7th. Who has new hive of bees and comb honey? Henry Elliott, Owensmouth P. O.
