

The Gazette is devoted to every good interest of Owensmouth and upper San Fernando Valley

The Gazette is a local newspaper. They had not gone out all the way. It happens and not to cause word

LET US CLEAR THE SLATE WITH THIS MONTH

There are a few outstanding payments on the second and third Liberty Loan Bonds, which have not been met, and there seems to be a wrong impression gone out that by default of payment they have lost their bonds. This is not so. Mr. Waring, of the State Bank, says that they stand ready to hand over the bonds, and will gladly do so, so long as they find to show themselves a 100 per cent patriotic as has been manifested in the past.

The second payment on the Fourth Liberty Loan is also due and can be paid at the State Bank. This should be given special attention at this time. The War Savings Stamps are not all paid up, and as this is the last month, the appeal is earnestly made for complete settlement. If in your business matter and should be given the same attention as in private business affairs.

All the above payments can be made at the State Bank.

AMERICAN BEET SUGAR COMPANY MAKES PLANS

The American Beet Sugar Company makes the following stipulation for the coming year's product: Under this contract, if the price of sugar remains at 2 cents, the growers will receive for 17 per cent over the past season's average in the valley, a price of 13.69 cents a ton. The base price of 13 per cent beet, with sugar at 2 cents, is \$12 a ton. From the option of the best export beet growers, this is intended to be the banner year and no one will make a mistake in engaging in the best industry for 1919.

Since war conditions cannot block the way, there is no occasion for his company with anyone. The labor problem poses a satisfactory solution. The company is to be more careful as to restricting culture, to handle especially adapted to produce good crops. The company desires quality of lands rather than quantity and will be satisfied with a total acreage of 5000 to 6000 acres.

RARE ENTERTAINMENT NEXT MONDAY EVENING

The first number in the high school entertainment course will be given in the high school auditorium Monday evening. This course was arranged through the Extension Division of the University of California, and represents the very best talent available. It is expected that there will be a large attendance at this entertainment which is the first to be given this season. A good many have bought season tickets at the drug store or at the school Monday evening. No one should miss this first big opening number.

HIGH SCHOOL

Don't forget the entertainment Monday evening. You'll be sorry if you don't. Willie Santa Maria came to school Monday, hoping to get an extra day. Wouldn't it be fine if everyone was as energetic?

The science departments have been supplied with additional apparatus and materials. The Juniors held an important class meeting Tuesday afternoon. Some people did the most business to attend to.

School opened Tuesday with several students present than before the "big" ban was on. All seemed glad to get back in spite of the extra work to be done. Two short periods are being omitted in order to make up other periods longer. There is also a period before school hours and at noon when students may get extra help from the teachers.

Hosue Williamson and Rookby of the High School, and Misses Gardner and Smith of the Grammar School are occupying the banquet hall of the high school. The new quarters have not been announced yet but will be later. The students are looking forward in anticipation of a house party to be given by these teachers.

MERE MENTION

O. P. Thomas of the Hydro-Hardware Company has been kept busy stenciling new mail boxes this week.

Rural Route No. 1 filled up a total of 434 gallons last month, over 100 gallons more than handled in any previous month.

Two more local firms added to The Gazette's ad columns. L. J. Ball, Mack-smith, and Otto Giesch, Myrtle road, are advertising and confectory articles.

There will be a meeting of the executive board of the Owensmouth Women's Club on Monday, December 9, at 1:30, at the home of the president. A full attendance is desired.

The deferred meeting of the Red Cross will be held next Tuesday afternoon at 7:30 o'clock in the Library room. As it will be the annual election of officers for the ensuing year it is desired that there be a general attendance.

Hennig Carlson, who recently arrived from the valley, has this coming week been smoothly at his Marian County Ranch and is now caring for several thousand chickens. He plans to increase this number very materially, however, and is having a great affairs every day for doing so.

Earl Bridg, who has been a student at the University of California, Camp Meade, Mo., has received his discharge from the service and is now caring for several thousand chickens. He plans to increase this number very materially, however, and is having a great affairs every day for doing so.

The sale of three large tracts near San Fernando was approximately \$7,000 a lot. A. Hammond of the Hammond Lumber Company by the name of Fernando Mason and company was recorded in the office of the county clerk and yesterday afternoon it was found that they needed four more than medicine, more than anything else.

The great portals of Liberty Fair were thrown open Wednesday afternoon at Exposition Park. The delay has given opportunity to work out many details at the fair and in numerous respects it will be much better exposition. The live stock exhibit consists of 1500 entries from United States and Canada. The tractor and implement exhibit is the largest ever in the west of the Mainland.

A reception will be tendered the new pastor, Rev. H. T. Lewis, and his family Friday evening in the church room of the Synodical office. The Ladies Aid Society has the matter in charge and urge that a general turnout be made by all, as the invitation is extended to the entire community. Light refreshments will be served, an interesting program for the evening and a rare social time is promised.

The responsibilities of the school room were taken up Tuesday morning by both the high and grammar graders, with the usual activity and interest between the benches and desks. Everybody seems glad, for the suspense of the many weeks has not been excessive to the slightest good, although some of the pupils have been in the trouble, studying to keep up their school work.

Owensmouth is to be congratulated upon the splendid response given to the Christmas parcels to the boys overseas. Mrs. Mitchell, who had the work in her charge, says about all were remembered, and in addition many more parcels were made by different friends, and forwarded to the Los Angeles Red Cross to be sent to the boys at the front. It was a noble work, and more will have occupied in the future, having taken part in the good cause.

Community church services will be held in the school room at 8 o'clock this morning at 11 o'clock and the new pastor, Rev. H. T. Lewis, will occupy the pulpit. His theme will be "Life to Come." The Epworth League will meet at 6:30 p. m., and at 7:30 the pastor will speak on "The Kingdom of God." The Sinner—Way of the World, Way of the Law and God's Way. A very cordial invitation is extended to all who are interested for the day.

OBITUARY

John H. Torrey, aged 45 years, died Friday night of pneumonia, having been afflicted with influenza. He had not been sick long, but the ravages of the disease made quick work. The funeral services were conducted at the Holywood cemetery Monday forenoon by the Rev. Walton of Cumberland Presbyterian church.

Deceased was born in Petersburg, Ill., February 13, 1873. One of five children of Mr. and Mrs. Charles and Polly Torrey. He is survived by two brothers, Fred and Frank M. Also a sister, Mrs. Burgess Gil of Missouri and Henry Fredrick of California. He was ministered unto by his brother, Robert, during his last illness. Mr. Torrey has been a resident in and around the valley for 22 years. Those attending the funeral from Owensmouth were Mr. Walters, Nels

SAD ACCIDENT ON STATE HIGHWAY

Automobile Turned Over with Four People in Collision with Horse and Wagon

Man and Wife and Six Children in Wagon Have Narrow Escape From Death Now Stranded By Roadside

Camped by the roadside on Canoga avenue, south of town, is a man and wife, with six children, all young, including a seven-month-old babe included in the mother's arms. All are ill-dad, and hungry, while the horse and wagon are bruised and broken from accident.

Sunday night, while journeying out the State highway, an incoming automobile with so headlight damaged into the same caravan at the corner of Canoga avenue, with the above result. The auto tumbled completely over and the four occupants—two men and two ladies—were badly injured but not seriously.

The auto occupants were picked up and taken to the city, and the little band of travelers were brought to Owensmouth. W. R. Beckelheimer, the doctor at the residence, who was soon ministering to the unfortunate. Had and yesterday it was found that they needed four more than medicine, more than anything else.

The auto occupants were picked up and taken to the city, and the little band of travelers were brought to Owensmouth. W. R. Beckelheimer, the doctor at the residence, who was soon ministering to the unfortunate. Had and yesterday it was found that they needed four more than medicine, more than anything else.

They left their home in North Dakota weeks ago en route for California.

Christensen, Red, Lemson, James Sutherland, Wm. Ward, Thomas Thompson and Otto Gehlwitz.

nks in their Cadillac car, the very essence of property and contentment. They had not gone out all the way. It happens and not to cause word. They were two in a hospital, and soon death took two of them. The rest hurried to the city and sent their tickets to California. At San Francisco they engaged themselves with the horse and two pigs, and started for the mountains to San Francisco. With the illness and capital father made a living for them by buying back and whatever he could speculate with. They were doing admirably, until they met the tragedy which to date has cancelled their journey.

Here is a family reduced to want. They are almost penniless, rigidly and so far as the state is necessary repairs. By the kindness of the citizens these people are getting enough to eat, while they camp by the roadside. As we go to press the citizens are making an effort to send them to Los Angeles, where they will give the father work and shelter for the family until they have the necessary equipment for continuing their journey.

John J. Wells has had the legal phase of the matter under advisement, and so far as the accident was concerned, he will send them to Los Angeles, where they will give the father work and shelter for the family until they have the necessary equipment for continuing their journey.

John J. Wells has had the legal phase of the matter under advisement, and so far as the accident was concerned, he will send them to Los Angeles, where they will give the father work and shelter for the family until they have the necessary equipment for continuing their journey.

INSTRUCTIVE PRUNING DEMONSTRATION CALLED
S. R. Goodall, farm director for Owensmouth district of the county Extension Service, announced a pruning demonstration with deciduous fruit trees for the morning of December 11, at 10 o'clock, at the home of Mrs. Wm. Way at Winstanka avenue about two miles east of Owensmouth. The County agent, Mr. J. W. Brown, Sec. Prof. J. C. Whitten, head of the Division of Pomology, University of California, to give this demonstration and it furnishes a rare opportunity for those interested to observe reliable first hand information and it is a practical way so they can apply it to their own orchards.

Kerosene Tractors

HERE is a tried and proven tractor. This Case 9-18 Kerosene Tractor is popular all over the country. It is light but not frail, weighing little more than a team of horses. It pulls two 14-inch plows anywhere a good team can continuously pull one 12-inch plow. It delivers 33 1/2 more drawbar horsepower than rated. It has a 4-cylinder Case valve-in-head motor and burns kerosene successfully and economically. An efficient air strainer prevents dust and grit entering the cylinders. High grade cooling system includes pump circulation. In dozens of ways this tractor is far in advance. It is the pattern which others try to follow.

In plowing, all wheels run on the unplowed ground. All steel gears are enclosed and run in oil. Hyatt Roller Bearings throughout.

This powerful tractor, the most efficient in its class, weighs only 20-28 Therefor, fully equipped; a Case No. 12 Side Flip, Case 17 x 22 Hay Baler and other machines requiring similar power.

Before you buy any tractor, be sure to investigate this wonderful Case. "Better be safe than sorry."

THE CASE TRACTOR CO. CHICAGO, ILL.

Hayden Hardware Co. Owensmouth, Cal.

Pans in the Tropics. The ordinary steel pots used in temperate climates, particularly those used in the United States, are not adaptable to the tropics on account of rusting. This is especially true during the rainy season and at such times the pots are rusted or those coated with bronze do not seem to be thus affected. Ink deteriorates very rapidly in the tropics. One of the commonest causes of this is the inconsistency of gum. On the ordinary steel pots this acid is rusted and is said to be of little use for a short time. With the bronze or brass and with a patent with bronze coating ink is cast, wiped or burned off—Indianapolis News.

The Value of Education. Late statistics show that uneducated laborers earn on the average about one-fortieth as much as the total of \$20,000; high school graduates earn on the average \$1,000 a year for forty years, a total of \$40,000. This additional education requires twelve years of schooling of 180 days each, a total of 2,160 days of school. This means that each \$20,000 to the income of life, then each day at school adds \$9.09. The uneducated man has to work 100 days, then \$8.59 a day is losing money, not making money.

Notice. Taken up on Los Virgona Grant, about one west of Calicut, are 100 light red copper, with balls on. Right light red copper, all in one lot. Will be sold as same by paying feed bill and cost of this notice.

SIX YEARS AGO TODAY

The Sunday-school has an enrollment of thirty-five pupils.

Everybody is looking forward to next Saturday the day of opening traffic between Los Angeles and Owensmouth over the Pacific Electric Railway line.

A very local church society has been organized with Rev. T. A. Hull as pastor.

There was a social party last Monday evening at the fine residence of Mr. and Mrs. T. A. Hull on Emmett street.

School is now an established institution in Owensmouth with daily sessions held in the newspaper building.

It was just six years ago tomorrow that Owensmouth was officially put on the map.

The town of Owensmouth is a crowning culmination of a great plan in the mind of Mr. Whiteley.

The second payment on subscriptions made to the Fourth Liberty Loan fell on Thursday, November 21st.

Now, that Kaiserbill has got enough of the fight, why don't you people put him in a gunny sack and throw him in the ocean.

His Apology... "Sorry, old man, I called you a fool. I should have remembered the well known injunction."

Burn of His Choir... A peppy New England parson, who was disturbed by his choir during prayer time, got even with them when he gave out his closing hymn by adding, "I hope the entire congregation will join in singing the grand old hymn, and I know the choir will, for I heard them humming it during the prayer."

We have on hand and can deliver at once a new 1918 five passenger Buick car.

RHODES AND THE AFRICANS.

How the Empire Builder Ruled the Savage Native Chieftan.

"Rhodes then took the matter up and arranged through messengers for a talk with the native and then kept him waiting—exactly three days.

"What do you mean by killing my white people? He demanded.

"At first the native was offended, but the personality and forcefulness of the empire builder soon cowed him.

NOVICE... We now have on sale a new and complete line of Christmas toys, post cards, booklets and other suitable gifts.

Take your shoes and harness to the Electric Shoe Hospital for repairs.

If you are contemplating buying a new car, come in and talk it over. New Fords will soon be on the market again.

ANNOUNCEMENT... The second payment on subscriptions made to the Fourth Liberty Loan fell on Thursday, November 21st.

DAILY TIME SCHEDULE... Arrival and Departure of Cars Over Pacific Electric Railway

In effect Thursday, Aug. 24, 1918, between Owensmouth and Los Angeles as follows:

Table with columns: Leave Owensmouth, Arrive L. A., Leave L. A., Arrive Owensmouth. Lists times for various routes.

Goodrich Tires... Goodrich Tires are the best tires for your car.

Help Uncle Sam Win the War Against the Kaiser by Buying Thrift Stamps and War Savings Certificates. For sale at Postoffice.

GEO. W. WEST MEN'S FURNISHINGS... BUY LIBERTY BONDS FROM UNCLE SAM AND YOUR MEAT FROM US!

"In Liberty's Name may it ever Wave, O'er the band of the Free and the Home of the Brave."

The humble bike is coming into its own again. Boy, girls and men ride them unshamed, as they did in the days of joy-riding.

The one argument against doing what we can to bring this arch criminal, the ex-kaiser, to justice, is that at present he is a mean and contemptible figure, hiding his head from the ruin he brought on his country and that if we prosecute him, we may weaken our moral.

Christmas this year calls for intelligent thought. There must be any promiscuous giving. Give with a sense of helping as well as gladdening, and be sure that what we give has a definite use as a basis for its appreciation.

It is a pleasure to be back to old routines in all phases of living that have just closed. It will take some work to bring about a strictly normal condition where the restraint has been so severe.

Senator James D. Phelan has introduced a resolution in the senate fixing the date of Thanksgiving day hereafter on November 11th.

Every brewery in the United States closed down last Saturday night to await further orders.

Well, it now looks like these teachers would get their pay after all.

Rose Tournament talk is beginning to loom up.

BEST SEED WILL INCREASE WHEAT
 Good Variety Suited to Local Conditions Will Add to 1919 Liberty Harvest.

AVOID NOXIOUS WEED SEED
 Get to Get That Kind Which Has Been Grown Continuously in the Locality for Some Time—Early Seeding is Favored.

(Prepared by the United States Department of Agriculture.)
 Many knoohole can be added to the 1919 Liberty wheat harvest, and farmers can reap added profits from increased yields with no more than the usual labor or expense if the variety of seed sown this fall is pure and is well adapted to the locality. The seed should be free from noxious weed seed and not infested by destructive plant diseases. It should be plump and heavy, if there is doubt about what variety produces the best yields in a given locality the grower should consult his county agent, state agricultural college, or write to the United States Department of agriculture, Washington.

Use Home-Grown Seed.
 Home-grown wheat should be used for seed, wherever possible. The best seed to get is that of an adapted variety which has been grown continuously in the locality for some time, provided it is pure. The idea that varieties "run out" if grown long in one section is only an expression for the fact that they are allowed to become contaminated and weedy and diseased. Changing the kind of wheat grown should be done only for the purpose of getting a proved better variety. It is often demonstrated to this, provided it is demonstrated beyond question that the new variety is better for that locality.

So-called "new" varieties, extravagantly advertised at fancy prices, should be regarded completely. The varieties recommended by the state experiment stations or other authorities for several districts within a state or region are the ones which should be grown. In Kansas, for example, the Kansas, an improved strain of Crimean wheat, is commonly grown in view of the Turkey and Kinshov. The introduction of these hard red winter wheats into the Columbia basin of Oregon and Washington, and elsewhere in the Pacific northwest has increased yield and quality of the wheat produced. Poor varieties are being displaced rapidly.

See Seed Field.
 The best way to be sure that the seed wheat is free from mixture with other varieties and also from weeds and diseases is to inspect the growing field. Each farmer should do this in his own fields and neighborhood. When his own variety is not well adapted

A Seed Plot From Which Best Yielding Varieties Can Be Obtained.
 or otherwise of good quality he should purchase a quantity of adapted varieties grown by some of his neighbors and arrange to obtain seed from them after threshing. In many instances he can arrange to have special care given to this field at threshing time in order to prevent mixture. Such care is especially desirable this year, when the supply of seed wheat retained on the farms probably is smaller than ever before.
 Seeding with a drill always is advisable. In general, early seeding gives better results than late seeding. Where there is danger from the Hessian fly, the time of seeding should be in accordance with the best advice given on this subject for each section of the country. A chart showing the wheat-sowing dates to thwart the Hessian fly may be obtained from the United States department of agriculture at Washington.

MAGNIFICENT MUNICH.
 The City is One of the Chief Prides of the Teutonic People.
 In physical aspects Munich, the third city in the German empire, is one of the most impressive of modern cities. Its royal palaces, its magnificent national theater, its great royal library containing 1,100,000 volumes and 50,000 rare manuscripts, its broad thoroughfares, particularly the Ludwigstrasse and Maximilianstrasse, honored by the great office buildings of the Bavarian government, and its famous university, which ranks first among the German institutions of learning in the number of its medical students and second only to Berlin in the number of students of all classes—all these and many other buildings and institutions make the municipality one of the chief prides of the Teutonic people.

Most of the modern improvements and practically all of its architectural splendor Munich owes to Louis I. and his ardent successors. Louis came to the throne in 1825 and ruled for more than twenty years. One of the impressive monuments of his reign is the beautiful Propylaea, modeled after the gate to the Athenian acropolis, and the reliefs which decorate this structure quite fittingly tell the story of Greece's war of independence and its events transpiring that kingdom during the eventful reign of King Otho I., Louis' son, who was elected to the throne of Greece in 1832, but was finally expelled after thirty years. Another beautiful Munich gateway is the Sigsgator (Gate of Victory), modeled after the arch of Constantine in Rome.

Munich owes its beginning to Duke Henry the Lion, who in 1158 established a mint here and built a bridge across the Isar in order that he might the more easily levy a toll on the salt obtained from the mines of Reichenbach, the most important villages. The city occupies the site of the ancient monastery of Tegernsee; hence its name (Munich, the monks). In 1277 the place was almost completely destroyed by fire, but it was soon rebuilt by Emperor Louis, the Bavarian, in the form which it retained up to the accession of Louis I. in the nineteenth century.

America has had a share in the beautification of Munich, for it was Benjamin Thompson, a native of Woburn, Mass., who laid out the magnificent park of 600 acres known as the English garden. For his many services to the Bavarian government the American scientist and administrator was made a count of the Holy Roman Empire, and he chose as his title the name of Rumford, after the little New Hampshire village (the modern Concord), where he had spent his boyhood. It was Thompson who, upon clearing the streets of Munich of more than 2,000 mendicants and housing them in an institution where they became self-sustaining, said: "To make vicious and abandoned people happy is generally been supposed necessary first to make them rich. But why not reverse the order? Why not make them first happy and then virtuous?"—National Geographic Society Bulletin.

Has the Habit.
 "Is he a habit?"
 "An inveterate one."—Lovelock's Courier-Journal.

SPECIAL NOTICE.
 J. C. Craig announces that he has made arrangements with the county farm advisor to give a pruning demonstration on his place at the corner of Wineska and Sherman way, on Wednesday, December 11th, at 10 o'clock in the forenoon.

This demonstration will be conducted by Prof. J. C. Whitten, assisted by Assistant Farm Advisor Hodgson. Pears, peaches and apricots will be pruned.

In the afternoon a demonstration will be held in Van Nuys, details of which will be announced later.

Color of Lightning.

The color of lightning is almost entirely due to the nature of the substance in its track that it is made to pass through. The blue, red, purple, silver, etc., which are so commonly seen after dark, which are ordinarily much more brilliantly marked in tropical countries than they ever are in the midwest. Are due to the same circumstances, as that which produces the colorage is distinctly communicated to the lightning. Light of different kinds of fireworks...
Waves Still. Raggedy-Top! You won't get nothin' worth eatin' in 'at right place! Vegetarians. Hungry Higgen! Is dat right? Raggedy-Top, is dat right? dog wot ain't-Boston Evening Transcript.

Patriotic.

The children were having a review lesson in history. The teacher said: "Columbus had a compass to sail by." "Did Erasmus use a compass?" "No," answered the boy, "he called by the stars." "And what else?" asked the teacher. "After a moment the boy replied, "And the stripes."—Exchange.

The Government needs the money at once! You get 4 per cent interest, compounded quarterly. For further particulars inquire at this bank or the Postoffice!

STATE BANK OF OWENSMOUTH

Bargains in Tires
Did you ever figure at just how much a cheap tire costs, and does it pay to buy such tires? It is what you pay for the tire, it is what you get out of it. Cheap tires are not dependable. The time you take in getting adjustments, plus grief on the road with a cheap tire is very unsatisfactory. We have the best tires built in America, and they give satisfaction. All well known makes. Come in and we will show you why they are the best. Racer Country Road, guaranteed 5,000 miles. Kelly-Springfield, guaranteed 10,000 miles. G. A. HUFFAKER, Ford Agent Phone 25 Van Nuys, Calif.
