

The newspaper is a dispense of all the local happenings, carrying out the home for the people. It is every word of the household of it and more.

VOLUME VII

OUR BOYS IN KHAKI

Earl Briggs, recently discharged from military service, has an splendid position in San Francisco with the 26th Regiment and was met by Mr. and Mrs. L. C. Kimball, Jr. who entertained him prior to leaving for Camp Kearny for his discharge.

Charles Greier, a retired soldier who has been in the employ of the city for many years, is back on the job at the San Francisco office of Mess at the Chatsworth reservoir.

R. J. Murray, who is a returned soldier, is now residing at Oakland, in England, is assisting W. E. Fowler, who is painting the hydraulic block. Mr. Murray was in the 2nd Machine Gun and was action.

Serg. Clifford Briggs arrived in Los Angeles last Saturday afternoon with the 26th Regiment and was met by Mr. and Mrs. L. C. Kimball, Jr. who entertained him prior to leaving for Camp Kearny for his discharge.

Our Government is booming perturbed over the prospect of numbers of people being taken care of in the insurance line by the War Risk Insurance Bureau. This Bureau has taken a number of things with it, explaining the different features, the changes, types of policies, etc., of the insurance, including the services of Henderson, resident local agent of the Mutual Life, will furnish all the facts as to it, with the Government.

WOMAN'S CLUB NOTES

FOUR PUPPETS TO BE PART OF PROGRAM

At a meeting of the Chamber of Commerce Monday evening a full board of four departments was organized with H. W. Allen as chairman. It is the intention of making all the progress possible toward qualifying as an active agency.

President West having commended with the city clerk carried the idea that the city's cooperation with it was largely dependent upon the amount of vim and interest we are accorded to a complete organization. This being the fact, Capt. Allen is making his force for next week. Periods of practice will be held at one and five a month with some special response will be some of the coming attractions for next week.

THEY CANNOT MEET

There is to be a chemical analysis installed and will be the 100 or 150 of them. It will have a fair trial to begin with. Some complaint was made of getting more from the city, at the present time only four are available in the central section of town. The cylinders are easy enough to obtain where clusters of homes are located. It will not be slow in coming after we get our machinery installed, establishing a new agency. Water purifiers are another thing which we are connected with the Chatsworth reservoir we have only a little, there is no possible pressure, which is inadequate to flow a stream of any consequence. As the sign here it will add to the pressure accordingly.

LATE LOCALS

This is reported as a very early arrival of the fruit. It is reported that C. M. Pierce of Hollywood has made a substantial purchase of oranges in the citrus belt northwest of here and will plant citrus grove in the near future.

Joe Poustall, an employe of the city on the Chatsworth reservoir at Westwoodly last week of illness and one or two cases are still reported. The managers, who is the attending physician.

The last of the food sales conducted by the Ladies Aid Society will be held Saturday afternoon at the Chamber market, and everyone should avail themselves of the opportunity by purchasing a weekly share.

The attention of all ranchers is called to the advertisement of "Water Rights," the thoroughbred of all his lineage, found in this issue. From what you are able to gather, it is on the ground, the advertiser is in the market.

HIGH SCHOOL NOTES

Another moving picture program, "The Kings of the Jungle" and "Hull" will be given at the high school's work from Friday night. Mrs. J. W. Allen and Jack in the "Kings of the Jungle" will prove to be an added attraction of the program. The program will be a pleasant and profitable evening in connection with the school. Admission for students 50c, for the general public 75c, for the poor 25c.

WATER PLANT

OWENSOUTH, CALIFORNIA, PRIZE MAY 1, 1919

Owensmouth To Get a De-Hydrating Company

Local Capital and Leading Grocers Are Behind the Enterprise

Operative are to begin at once upon the construction of a fruit drying and de-hydrating plant in Owensmouth, at a cost of \$400, not including site. Messrs. G. W. Clemson and W. E. Beckstead, well known and extensive grocers in the upper valley, are the promoters of the enterprise, who have been devising considerable time into making fruit drying. They foresee a great future for an establishment of this kind, for while it is known as a fruit drying enterprise it is also especially designed for handling tons of vegetable, such as tomatoes, potatoes, carrots, spinach, cabbage, pumpkins and the like.

A life has been started south of the townsite near the P. tracks and within thirty days the machinery and equipment, which is already ordered, will have been ready to be installed. Meanwhile the building operations start on the ground and building operations start on.

THEY CANNOT MEET

Mr. Beckstead is an old hand at fruit drying having had 17 years experience, and will be capable of going along with the knowledge and skill which will be installed. He will be one of the best of the kind in the country, although it is extremely difficult to get the best of the kind in this country, although it is extremely difficult to get the best of the kind in this country, although it is extremely difficult to get the best of the kind in this country.

POST OFFICE CLEANINGS

A daily rural route was established out of Owensmouth on the 15th of May, and it is needless to say that the route will be held with rounds of 100 miles a day. The service has been well every since. Carrier McDonald commences his route on the 1st of March, and prior to that time A. Paulson, who was in the service for two months, Mr. Herold was the first rural carrier.

The day of a daily rural delivery has long been felt and so little effort has been made to improve the delivery of the service. For six months we have been in close communication with the department, and every means possible for proving the necessity of the same has been made. After Commissioner Randall took hold of the matter things looked a little brighter.

WOMAN'S CLUB NOTES

Next Wednesday, May 7th, the Women's Club will meet in the church at 8 o'clock. The subject of the evening will be "Bible Study in the Home." It will be a very interesting program, and all are invited to attend. The meeting will be held at 8 o'clock, and the subject will be "Bible Study in the Home." The program will be held at 8 o'clock, and the subject will be "Bible Study in the Home."

GRAMMAR SCHOOL NEWS

Mr. Schubert yesterday after several weeks of illness in the hospital. He was reported to be much improved, and it is hoped that he will be able to get out of the hospital in a few days. He was reported to be much improved, and it is hoped that he will be able to get out of the hospital in a few days.

IMPORTANT

Howard Martindale gave a couple rare selections on his violoncello at the home of Mrs. M. A. Jones. The program was given by Mrs. M. A. Jones, and it was a very successful one. The program was given by Mrs. M. A. Jones, and it was a very successful one.

LADIES AID SOCIETY

Food Administration Will Take Our Beans

Compulsory action has at last been taken by the United States Department of the Food Administration, as regards their taking from our valley a portion of the crop, estimated to be 150 cars of beans. It will be remembered that last year, J. H. T. Wiley and Alex. Jeffrey gave to Washington, also as a result of the investigation of certain operations of the Food Administration officials, the government some 200 bushels per acre, but they were not taken out of this quantity of our beans.

Nature Day at Woman's Club
