Are We Sleeping on Guard?

That Owensmouth and the Fernando Valley is just now at the pivotal point in its history...

There is a wailer main constituting the upper valley with the Clatsop city steady, and this is to be before next summer's irrigation. We ought to have some voice in the matter...

We are wanting more electricity for our homes, but how in the world are we to get it? This and a score of other problems are facing us...

We must have a Commission who lives out here and who is talking sense, and will get it by steady pounding, and in no other way...

Organization is the word we call it; but we mean a business, that's what we want. "Organize what?" Why, organize the people. You mean they are not "single-minded"...

What are the people to create? You mean a committee, clergy or who holds "power," merchants, manufacturers, laborers, and even the law...

Most interests of the morning picture entertainment tonight at the school auditorium, beginning at 8 o'clock. "Fairy Arabelle" will be the other side of the program...

Will G. Wood, superintendent of the "The Desert Man" school, has recently issued from his office a book of 446 pages titled "The School Law of California, 1919"...

PERSONAL MENTION

Mr. Morris has moved to Highland, California. Mrs. George Craven has moved to Los Angeles...

MERE MENTION

THE SILENT SERVANT - OF THE HOME

Goodly, Bridget, Hannah and Lena. Your days are numbered. If indeed not entirely over. These beautiful mountain streams hush to the Sierras have taken your place.

Electricity, that silent, safe force, has brought the power of these water-falls into your home to wash your clothes, cook your meals, clean your house and solve your servant problem.

At breakfast this think of the joy of sitting at your table with an electric percolator making your coffee, a toaster toasting your bread and eggs or pancakes and a warmer heater making your toast. Truly this is life joy. Even the efficient Bridget is to be envied for now she has no work left to do. Electricity has taken her place.

And the dishes—yes, electricity will do this for you at a snap of the switch. The dishwasher stands and it

Electrical Gifts are Sensible Gifts

Their usefulness lives from year to year. Their beauty, utility and increasing popularity solve many a Christmas problem for those who are particular about what they give

Santa Claus

Is Coming on a Live Wire this Year

Once Santa Claus crawled down the chimney on his Christmas visit, bringing toys and other things that amused or lasted for a short time. Now he come into the house on an electric wire, and his presents do away with drudgery 365 days in the year, because they are connected with the new power that is generated from the streams and water falls in our mountains and which does the work that women once did with a broom and dust pan, and coal and oil and fire-wood.

Let our electric dealer or our representative show you the wonders of electricity as a fuel saver. Then you will be prepared to welcome the electric Santa Claus when he comes on Christmas morning on a live wire.

Electric Appliances

and behold, your dishes are clean.

Wouldn't Bridget be astonished to see the modern wash day with the electric washer machine washing the laundry for a family of six for 4 cents with practically no work? And then comes the ironing day—the electric iron always at the right heat, saving countless steps to and from the fire and iron smoothly and easily the entire washing for about 15 cents.

What's else have you of Lena? Her old-time broom and duster have been traded for the up-to-date vacuum cleaner. Electricity will clean your home, rug, curtain, floor and all for a very few cents. Lena's work is done; electricity has taken her place. And nobody wants to spend the day visiting, yet dinner must be ready at six.

Again electricity will do the trick, for with the electric range, all you can get for dinner in 20 minutes in the morning, set the clock for the time you want for dinner to start, to cook and set the electric thermostat at the desired time. When the time comes, the clock automatically starts the electricity, heating the oven, and when the desired heat is reached the thermostat cuts off the electricity and the oven works like a kitchen clock. Hannah, your days are numbered. Then nobody come home at six. A map of the switch floods the house with radiant electricity and she finds her dinner thoroughly cooked and ready to serve.

Even sewing, electricity has revolutionized. No need of mistle-fruit trees, with the addition of the treadle machine. Electricity will do this work and many things that have hitherto had pleasure in sewing the electrical way.

And in the middle of the cold night the baby must be fed. A simple meal of the switch heats the baby's milk without your moving from your bed. Just think of the great help electricity is.

On the breakfast table many good things can be cooked without even going inside the kitchen. The blurring waffle from, cookies, flap jacks, waffles right on your own table without any grove or smoke, are piping hot ready to serve. An electric percolator keeps the coffee hot right right and always hot, and the toaster toasts just as they should as you wait for the toast. In the bathroom the cozy glow of the electric heater gives a relaxing warmth. After the bath, and on the morning a soap the electric brush brings the cherry electric rug to your feet. Truly electricity is humanity's greatest friend.
