PROPERTY JOINS TOWNSHIP ON THE SOUTH

Fire Large Residence Is to Be Part of Extensive Improvements

A very large realty deal was consummated Tuesday, through T. M. Miller Company, involving 43 acre lots between South Canoga and Topogosa aces, and fronting on Vanowen avenue. Harwood A. Travellers, of Los Angeles, was the lucky buyer, and the purchase price was \$44000.

This is one of the largest sales made in recent months in this part of the valley, and goes to show something of the stability and faith in the Upper Valley.

Mr. Travellers is to become a resident of Owensmouth and will begeth apartments on the new residential zone. He is a top business man, and will improve his white orchards and residence here. His father-in-law will retain his holdings by developing fruit orchards and citrus trees. He also anticipates to erect that Mr. Travellers recently purchased twenty acres on Sherman way, west of Owensmouth near the Arlene Cravin tract.

With all his holdings in acreage, and his plans, the future seems a valuable speculation on this part of the valley.

Lots 11, 12 and 13, in block 69, and lots 12, 13 and 14, in block 70, Owensmouth, were sold Tuesday to Frank O'Neil, of Chicago, for \$100,000.

Mr. O'Neil, of South Dakota, who is searching for a location where he may locate his vineyard, has been pleased to buy the Owensmouth realty.

The fire on the other side of the street, south of the corner of Sherman way, was not as beautiful here.

Mr. Clarke, recently from the east, made a substantial purchase this week of 34 lots in block 43, fronting on Deering street, and aggregating 100 acres. Mr. Clarke contemplates erecting the post office building and will begeth a farm east of the Hansford Lumber Company yard. He has a family, and will be here as soon as his completion of the above plans will be made through the T. M. Miller agency.

SEPTIC TANK MAY BE USED

Confronted with the great problem of disposing of the sewage of the great valley area, an economic solution is being sought in the city of Los Angeles is already being made to inaugurate.

For the past month, D. W. Threlkoff, chief engineer and inspector for the district, has been making a detailed survey of the situation and its extent in this city.

Engineer Threlkoff has recommended to the city council that as a first step the use of septic tanks be recommended by a large majority of the voters of the municipality, and by the proceeds for the installing of such tanks in the city.

SEASON'S RAIN FALL

The following is the record of the rainfall for the season to date, as furnished by the Weather Service Bureau, taken from their Government rain gauge:

September 21, 1919.....	2.28
October 11, 1919.....	3.23
November 4, 1919.....	4.65
December 4, 1919.....	1.93
January 1, 1920.....	2.11
Total for season.....	14.20

FOR LEASE

One hundred acres of choice citrus land with citrus trees from California Superior Seedling stock, for sale or lease, near Los Angeles, 5 miles from Los Angeles, for sale or lease. See advertisement on page 10.

Occupation Tax Time Up on 21st

Doubtless the majority of property owners or transacting business in Los Angeles are acquainted with the fact that the law requires that an account of their occupation tax for the year ending the 21st of January, or two days less, shall be submitted to the collector.

This all means about through the occupation tax, tends to furnish the city revenue just through the abolition of the ordinance now in force relating to the collection of the same. This has been one of the main reasons for the passage of the bill on the 21st of January, so that the law may be extended to the 1st of November next.

This bill means that, instead of being based on the amount of gross business transacted, a copy of the ordinance may be seen at W. B. Hochstetler's drug store, and it will be wise for all who have not already familiarized themselves with the law and rules regarding the same to call on him. It is a lengthy document, and there looking it over will not cost \$100, but \$125 for a copy, and may read widely a few minutes.

Income Tax Returns Are Due

Return from income tax are now being filed with the internal revenue department and will be closed up to March 15, according to the announcement of Collector General Charles John P. Carter.

At the time of the filing of the returns the tax may be paid in full or if desired, it may be paid in four installments. In the event it is paid in installments the first installment must be paid March 15, the second by June 15, the third by September 15, and the fourth by December 15.

Collector Carter called attention to the fact that taxpayers will be forced to pay cash as much in taxes as last year, as the normal exemption as the last year are in effect—\$1000 for single persons and \$2000 for married persons.

The average net income for 1934 was \$1000 and not over \$10,000 in 52 per cent of the tax units with 18 per cent on the amount of net income between \$1000 and \$5000 and increases by steps of 1 per cent for each \$2000 of net income.

WOMEN EXCEED MEN IN JAPANESE FACTORIES

850,000 Japanese Women Work at Average Daily Wage of Ten to Twenty Cents for a Twelve Hour Day.

There are more women in industry in Japan than men. The reason is that a statement recently made by the W. Y. C. A. that the young women's Christian association in Japan has 500,000 girls and girls into the daily labor force. This statement is based on a survey of 30,000 of those little girls under fourteen years of age who work twelve hours a day, that the world may have with women and domestic work.

In Tokyo alone, a city of two and one-half million people, there are 100,000 women employed in sixty-two industries and businesses varying from work as telephone operators, clerks, stenographers and bookkeepers to work in silk and other forms of fabrics and domestic work.

Each year thousands of these women are taken to the factory, broken in health and victims of tuberculosis, among other things, and they are taken to the factory.

No Need to Experiment

HERE is a tried and proven tractor. This Case 9-16 Kerosene Tractor is popular all over the country. It is lighter but not weighing less than a team of horses.

It pulls two 14-inch plows anywhere a good team can continuously pull one 12-inch plow. It delivers 35% more drawbar horsepower than used.

It has a 4-cylinder Case valve-in-head motor and burns kerosene successfully and economically. An efficient air cleaner prevents dust and grit entering the cylinders. High grade cooling system includes pump circulation. In dozens of ways this tractor is far in advance. It is the pattern which others try to follow.

In plowing, all wheels rest on the unplowed ground. Its steel-gang axle is end-loaded and runs on Hyatt Rollers (bearing) throughout.

This powerful lift tractor, the most efficient in its class, also drives a Case 20 x 28 Tractor, fully equipped; a Case No. 12 500 Filler; Case 17 x 22 Fly (Case No. 10) and other machines requiring similar power.

Before you buy any tractor, be sure to investigate this wonderful Case. "Better be safe than sorry."
