12-25 Model D Union Sure-Grip Tractor

AN UNUSUAL OPPORTUNITY to Secure a High Grade Tractor

After several years devoted to developing and building a tractor which in actual essence has proved to be one of the most successful of its kind ever produced, this company wishes to announce that it now will discontinue manufacturing this type of equipment and devote its entire energy and facilities to the building of all we machinery exclusively.

To those persons who plan now or at any time in the near future to purchase a machine of this kind, this policy offers an unusual opportunity to secure one of the few UNION SURE-Grip 12-25 Model D TRACTORS which we now have in stock and which will be sold at a tremendous sacrifice. In order to insure quick clearance of our tractor shop and warehouse for other purposes.

There are but a very limited number of these machines on hand at the present time - far less than the seasons output. No more will ever be built. The few we have will be disposed of at a price that will represent a cash saving of almost two thousand dollars on each machine.

To insure the past and future purchasers of these tractors against delay in securing repair parts, we will furnish with each buy a written guarantee to maintain a complete and adequate stock of all such parts during the entire life of the tractor, now in service as well as those to be sold. The usual hesitancy in purchasing discontinued lines of equipment, therefore, will not need to enter into our consideration of this offer, as full-out cooperation and protection against trouble or loss are pledged.

To those who have any intention whatever of purchasing equipment of this character, we can quickly request an immediate investigation of our representative's office. The limited number of these tractors are being sold with the exceptionally low price to be placed on them, we desire any possibility of the opportunity remaining open as long as possible.
