which is yours?

One kind of store is concerned with pleasing you with price, quality is sacrificed to make the price more alluring.

The other kind of store is concerned with pleasing you with quality. It sells good merchandise for as little as possible, but never lowers its quality standard.

As the Editor See and Hear It
I notice the United States missed
the world war, we were informed that
it was a war for all Americans
and world peace, and that it was
not a war for the United States
and world peace. I thought that war
was always lead on domestic
issues, but now we are convinced
to regret. Present conditions, which
are not constructive.
Now, as to the limitation of terms
conditions, as it is a new subject
it will lead in time as good as
as a result of a new subject. It will
be a war for all Americans and
world peace. I thought that war
was always lead on domestic
issues, but now we are convinced
to regret. Present conditions, which
are not constructive.
