"Rush Hours"

In all lines of business patronage is irregular, and a complicated mechanical equivalent has their "rush hours" when ramp loads in service are unavoidable. The public, with the situation before its eyes, good naturefully accepts a degree of inconvenience.

There are "rush hours" in a telephone exchange. With business service the "rush" of telephone traffic are determined by commercial activities, banking hours, etc.—the "load" of the residence telephone varies with household and social needs.

The demands upon the telephone operator and a complicated mechanical equivalent cannot be less, but telephone traffic varies in every hour of every day according to the individual desires of thousands of patrons.

If there should be at times a delay in answering your call, remember that trained young women with nimble fingers are doing their best to serve you, and that at the moment there may be a "rush" of telephone traffic.

The exercise of patience and consideration will meet better service.

The Story of Our States

By ALAN WALKER

XXVIII—TEXAS

The island of Nueces, the largest of the Republic of Texas was suggested by the first president of the Republic.

In Texas the largest settlement was the port of the Mississippi in 1823. The first settlement was made by the French in 1821. The first settlement was made by the French in 1821.

Are Your Lights Right For Night Riding

POOR LIGHTS are not only annoying but are positively dangerous. Especially if you save your cash at night. If your lights are not right bring your car to us.

Your bulbs may be out of focus or insufficient candlepower—and this can be remedied immediately at small expense.

Get into the good habit of having your car thoroughly inspected by us at frequent intervals.

Let us catch the little troubles and correct them before they have a chance to become big troubles.

In this way, and in this way only, can your car be made to give you real, 100% service every month of the year.

POULTRY CACKLES
 Prepare—It's on His Way!

CARING FOR GROWING CHICKS
 Essentials to Best Growth Are Good
 Cleanliness, Food, Water
 and Free Range.

When a hen begins to brood her
 instincts are so strong that she
 will do almost anything to protect
 her young. She will even attack
 the farmer if she feels that her
 chicks are in danger. It is the
 duty of the farmer to see that
 the chicks are well cared for.
 They must have clean water and
 a place to rest. They must also
 have a place to run and exercise.
 If they are kept in a coop they
 must have a place to stretch
 their wings and legs.

 (No. 544)
 No Withdrawals
 Department of the Interior, U. S.
 Land Office at Los Angeles, California,
 November 18, 1923.

Buy one Insulated Chick Allowed to
 Run Out in Government Farm at
 Beltsville.

ways more plentiful. Crops and
 pastures are abundant and improved
 over a week, and clean shavings, straw
 and hay are on hand. Remove the
 chicks and broods often for fine soil
 water, and if found they should be
 get rid of at once by following the directions
 in Department Circular No. 126,
 Virus and Chlamydia, which may be
 had, free, upon application to the division
 of publication, United States
 Department of Agriculture.

A variety of feeds with clean water
 is necessary if chicks are to
 grow properly. Forage crops are
 most necessary for rapid growth and
 healthy chicks. It is important to
 poultry specialists of the Department
 by the addition of green feed and
 dry mash, which should be prepared
 according to the directions given. Green
 feed should be fed night and morning, and
 fed in large quantities to the chicks.
 Dry mash should be fed in small
 quantities several times a day. A good
 mash should be prepared and
 consists of three parts crushed corn,
 two parts alfalfa, and two parts linseed
 meal. When available, hays or rolled
 lucerne hay may be substituted
 for linseed meal. In facilities where
 hatched chicks are raised in large
 quantities, hays or rolled lucerne
 may be obtained or use low expanse,
 a mixture of crushed corn and wheat
 may be used. It is important that
 the mash should be fed in small
 quantities, but not so small, when
 the chicks are added to the brood
 and first litter.

Chicks are to be ready for distribution,
 so let every lady in our store
 and get a ticket. Remember some lady is going to
 get a WASHING MACHINE
 ABSOLUTELY FREE
 when the big demonstration
 of Electric, water mangle and
 hand power washing machines
 takes place at our store

Nov. 29th

Be sure and get your ticket. You
 might be the lucky one.

! ANOUNCEMENT !

Due to improving money conditions and the recognized intrinsic
 worth of Edison Stock as well as the growing demand for
 this high-grade investment security the price at which
SOUTHERN CALIFORNIA EDISON COMPANY
 is selling its
COMMON CAPITAL STOCK
 is this date increased from \$94 per share cash to \$96.50 cash
 and to \$97.50 on the saving plan of \$5 per share monthly.

This New Price Yields the Investor 8.3% on his money.

Since inaugurating the plan of having the public share as partners in
 the development of our California Water Powers, the number of our
 people who have become investors in this company has increased to
 about 40,000—and we are glad to continue the plan at this price set
 forth above so that all may avail themselves of this opportunity.
