FREETRIPTHROUGH the STUDEBAKER automobile factory

We have arranged for an exhibition in Van Nuys of the remark-able film showing the manufacture, from the raw product to the finished car, of the Studebaker NEW LIGHT-SIX.

Rivoli Theater, Van Nuvs March 30, 1922, 7:30 p.m.

To see this great movie is to get all the thrill of a trip through the newest and most modern automobile plant in the world.

In this film you will see the various parts that go into the NEW LIGHT-SIX transformed from red-hot metal to the carefully finished and inspected unit. You will see in operation the newest methods, the most painstaking standards and the most efficient machinery in use in any automobile factory.

Although of an industrial nature, this movie abounds in human interest, with plenty of action and in many cases real excitement. IT IS AN EDUCATION IN ITSELF.
