Attention Ford Owners!

Ford parts, like almost everything else worth while, are counterfeited. Imitation parts are manufactured to SELL at the highest possible rate of profit and the grading of steel used are consequently not the same high quality, specially heat-treated alloy steels specified in Ford formulas for the manufacture of GENUINE FORD PARTS.

Don't be misled—Insist upon GENUINE FORD PARTS made by the Ford Motor Company. By so doing you will get from 10 to 100 per cent more wear from them, and you will pay the lowest possible cost—the same everywhere.

50% OF GENUINE FORD PARTS RETAIL FOR LESS THAN 10¢ EACH
