Southern California motorists now have the opportunity to use Associated Gasoline—a companion product to Cyclol Motor Oil. These products are made, and sold throughout the Pacific Coast States, by The Associated Oil Company—one of the foremost producers and refiners of oil products for nearly a quarter of a century. Because of the wide range of our oil field properties, we are able to select, for making Associated Gasoline, the crude oils most perfectly adapted for yielding the highest grade of gasoline.

New and different refining processes also give Associated Gasoline greater value in delivering mileage—in preventing dilution of lubricating oil and in giving a quick, snappy start. Thus Associated Gasoline saves your money, your engine and your battery—three important savings that will keep down your cost of motoring.

Associated Gasoline gives your engine added power—more "pep"—new eagerness to go. Every drop is consumed in the combustion chambers, leaving no damaging residue.

Leading garages and service stations sell Associated Gasoline. Look for the Associated sign shown here—it is the mark of a different type of service for Southern California.

ANYONE LOOKING FOR ISLAND

Most of all the Pacific Ocean. Head of Burgess Drive.

"If any young people have an ambition to own a whole Island in the Pacific Ocean, now is the time to realize such a dream."

The little island of Little Tuba (owned by the William Jones) is an island in the Indian Ocean.

Little Tuba (owned by the William Jones) is an island in the Indian Ocean. It is about four miles long, and is the home of a gorgeous cove of beach of paradise.

Any of these little islands were imported from the British territories about twelve years ago and are now owned on an experiment. The little islands have grown and prospered and now they have grown to an abundance of food for their inhabitants, and are now the most fertile and productive of any of the islands in the Pacific Ocean.

Snake Had Its Vengeance. While traveling of six miles per hour in Millers, Australia, a motorcyclist ran over a spider. The spider later hit his leg because light, and shortly afterwards, feeling gaily, he stopped at the local hospital. He made a very witty remark and reported to the hospital staff. He was asked for a name, and was told that if the spider had not struck him on the leg he would never have reached the hospital. The snake must have doubted by whom the spider struck it, for by the instant this struck the spider's leg in retaliation.

Severely Punished Girl. A girl who was being taken to work, which had to be applied to them in preparation for a single situation, who was very much in the line of her own work.
