

## WOOD RIVER

### BETTER PROGENY BY CULLING

Improvement Made In Flesh & Leg  
 of All These Cattle  
 From Blood

Observed by the United States Department of Agriculture.

"That culling the prostrate stock year after year is the only thing we can do to improve the prostrate stock, provide better material in the future and assist the property holder to remain successful in the United States environment. Thus, finally...

### FEEDING METHODS FOR EGGS

Methods Adapted by California Community Bureau in Better Health of Laying Flocks.

A quantity of five or six per cent of the year's running has entered in the California Department of Agriculture, last year's report to the United States Department of Agriculture, by local extension workers, who were engaged in testing various methods of the contract...

### TRADE-MARK ON FRESH EGGS

New Jersey Organization Making Use of Small Market on Produce Sold by Members.

A small trade-mark system is now in use in the State of New Jersey. It is the North Atlantic Laying-Center, Inc. This organization was formed as a result of a meeting of poultrymen of the community with the agricultural extension agent to discuss the development of the poultry industry in that section. Each member pays five cents per bird...

### DOULRY NOTES

Wishes to advise as important as possible in egg production.

A large lot of good incubation health and well produced eggs.

Make in production the best egg yield for the year.

Highly incubating poultry usually need fresh air.

Medium weight hens of any variety are usually more profitable.

Usually eggs lay over. The 100-egg hen is worth its weight in gold.

But blue combs and hair of matter make a good house for the egg of fresh eggs.

California Grow Tobacco.

Tobacco planting in Canada has been successful in spite of frost, says that it is to remember them." Henry Dixon.

### THE BARBERY BUSH

"What an odd the barbery bush!" says the author of the well-known song. "It is not a barbery bush, but a barbery bush." It is a bushy plant that grows in the barbery bush.

# California's Agricultural Wealth Approximates Three Billion Five Hundred Million Dollars

Here are facts about California which nobody should miss every one of her citizens proceed that ever before in this Commonwealth.

And they should be most broadcast over the United States so that citizens of other States may come fully appreciate the wonders of California.

Here in a State that is 780 miles long and from 120 to 370 miles wide, with a total area of 164,299 square miles, nearly as great as the combined area of New York, Ohio, Maine, Vermont, New Hampshire, Massachusetts and New Jersey.

Within its boundaries is the highest and lowest points in the States. Mount Whitney rises 14,542 feet above sea level, while Death Valley sinks almost 400 feet below sea level.

And here are mountains, high in mineral and timber resources, valleys of amazing fertility, world-famous harbors, cities teeming with industrial activity, livestock and contented people.

### Agricultural Income

#### \$700,000,000

Of the fourteen leading countries in the United States in total value of crops, seven are California countries.

The total annual income from the field and tree crops of this State is \$377,060,518. Dairying adds an income of \$99,064,518.

California's oranges are famous for their growth for any other fruit grown in the world. They probably bring her over 65% of her money.

California's grapes are world famous. Many millions of dollars' worth of peaches, prunes, apples, almonds, walnuts, pears, plums, lemons, cherries, almonds, grapes, figs and so on.

Here grow the earliest and latest fruit crops of the country; and more wheat, more fruits and vegetables than in all the rest of the United States combined.

California's vineyards return to her citizens over \$95,000,000 per year for raisins and grapes.

Year	1920	1927	1930
All land irrigated	110	125	207
All land irrigated	110	125	207
Average value per acre			
All farm property	\$28.18	\$14.20	\$14.20
Land and buildings	\$21.12	\$14.47	\$17.73
Improvements and machinery	1.33	1.41	1.91
Live stock	5.68	1.47	3.16

Another important factor in California's cultural wealth is an enormous investment in live stock which has grown to \$500,000,000. The average cow now pays a dollar worth of pig she does she has raised from California in a mere year.

Three billion live-headed milch cows in the agricultural wealth of this State and the vast additional wealth in her natural resources and her own population.

### Farm Values Increasing

A study of comparative figures reveals the fact that though the average price of farms is decreasing, the average value of farms is rapidly increasing. Here are the figures:

Year	1920	1927	1930
All land irrigated	110	125	207
All land irrigated	110	125	207
Average value per acre			
All farm property	\$28.18	\$14.20	\$14.20
Land and buildings	\$21.12	\$14.47	\$17.73
Improvements and machinery	1.33	1.41	1.91
Live stock	5.68	1.47	3.16

Three billion live-headed milch cows in the agricultural wealth of this State and the vast additional wealth in her natural resources and her own population.

### Serve Your State This Way

This advertisement is one of a series of three, the first devoted to telling of California's agricultural wealth, the second to

California's natural resources, and the third to California's industries. There are facts of which you can well be proud.

Beautiful borders and descriptive literature about California have been prepared by such organizations as California, Inc., San Francisco; by the All-Year Club of Southern California, Los Angeles; and by the San Diego-Columbia Club, San Diego.

There are thousands of people in other States who have no conception of California's greatness. Some of them are your friends. They do not know.

If you will send to the Southern Pacific Company a list of the names and addresses of your friends, living elsewhere, whom you would like to have receive a series of advertisements as well as the California literature sent by these organizations, which have for their sole purpose the advertising of California, we will send to your friends just this California literature.

### Send Your List Today

Your friends will glad to know these facts. The list of names you send us will be forwarded to your own Chamber of Commerce or other civic organization, and literature will be sent to them telling them interesting facts about your own particular community.

Simply attach your list to the coupon below and send it to us—no obligation on your part. Do it today before you forget. In this way you will help to spread this message of California's greatness throughout the land and for your own benefit and for your community.

Send your friends word of California's greatness. The list of names you send us will be forwarded to your own Chamber of Commerce or other civic organization, and literature will be sent to them telling them interesting facts about your own particular community.

Simply attach your list to the coupon below and send it to us—no obligation on your part. Do it today before you forget. In this way you will help to spread this message of California's greatness throughout the land and for your own benefit and for your community.

**Saves your money**

Associated Gasoline has greater energy value and delivers "more miles to the gallon" - saving your money.

**Saves your engine**

Associated Gasoline is entirely consumed in the combustion chamber, preventing dilution of crank case oil.

**Saves your battery**

Associated Gasoline is sufficiently volatile to give a snappy start in cold motors - saving the strain on your battery.

# Saves three ways

Superior types of crude oils and advanced processes of refining are responsible for the remarkable economy of Associated Gasoline. It is made by the Associated Oil Company, which has specialized in the production of petroleum products for more than twenty years.

Buy Associated Gasoline where you see the Associated sign. It is displayed by the garages and service stations shown below.

### Uncommon Sense

**HONESTY**

A FERGUSON bill is either good or bad. A man is either rich or poor. A thing is either useful or useless. It is in the nature of things that a man who is rich should not be poor, and a man who is poor should not be rich. It is in the nature of things that a man who is useful should not be useless, and a man who is useless should not be useful.

**Common Sense**

It is in the nature of things that a man who is rich should not be poor, and a man who is poor should not be rich. It is in the nature of things that a man who is useful should not be useless, and a man who is useless should not be useful.
