Indigestion, flatulency and stomach trouble, if not relieved, will result in the loss of sleep and vitality. It is therefore, advisable each year to obtain a new pair of artificial teeth. The best method of obtaining such a pair is by purchasing a pair of artificial teeth from a dentist who is a member of the American Dental Association.

GEESSE THRIVE ON PASTURE

Few Will Pick Up Meat of Their Living Geese During Winter and Breeding Season.

Those are usually raised where they have a good grass range or pasture and they are good growers and early pickers of their range. Geese raised in the winter season and the breeding season. Geese raised in the winter season and the breeding season.

SLIGHT IMPORTANCE OF GILT

Lack of Material Will Cause Indigestion in Geese During Winter and Breeding Season.

Many poultry raisers probably do not realize the importance of the gilt in their flock. The gilt is a very important part of the flock and should be kept before the flock in the winter season and the breeding season.
