PRESERVE ALL SURPLUS EGGS IN WATER GLASS OR LIME SOLUTION

Essential Equipment in Preserving Eggs
Preserved for the United States Department of Agriculture, the following are the best methods for preserving surplus eggs for use in the winter months. The first is to use water glass. This is done by placing the eggs in a solution of water glass and water. The second is to use lime solution. This is done by placing the eggs in a solution of lime and water. Both methods are effective in preserving eggs for long periods of time.
