**Ford Weekly Purchase Plan**

For many years it has been Henry Ford's personal ambition to make the Ford the universal car—to put it within the reach of the millions of people who have never been privileged to enjoy the benefits of motor car ownership.

During the past fifteen years over 7,500,000 Ford cars have been placed in the hands of retail customers—more than 1,500,000 of them within the past 12 months. And yet there are millions of families who are hopefully looking forward to the day when they can own a Ford.

And now the way is open.

Under the terms of this plan you can select your Ford Car, set aside a small amount each week and you will be surprised how soon you will own it. In the meantime your money will be safely deposited to your credit in the local banks where it will draw interest.

Think it over. Five dollars will start an account. The whole family can participate in it, father, mother, brother and sister each doing a little. Why not start today? Step in and talk it over with your local Ford Dealer. He will be glad to fully explain the details of the plan and help you get started toward the ownership of a Ford car.

**Family of Mary Little Chick, Wg**

In the poultry household one of the most important items is the family of Mary Little Chick. This family is known for its high quality and its ability to lay large eggs.

**POULTRY SELECTION IS BEST**

One of Quickest and Surest Ways of Making Improvement in Poultry Quality Counts.

The poultry industry is constantly looking for ways to improve the quality of its birds. One of the most effective ways to do this is by selecting the best birds for breeding.

**VITAMINS ARE FINE FOR LAYERS**

Winkams and Green's Superbent Poultry Growers' Best for Layers.

Laying hens need vitamins to maintain their health and to produce high quality eggs. Winkams and Green's Superbent Poultry Growers' Best provides the vitamins that a laying hen needs.

**POULTRY NOTES**

A henry hen is usually a good layer.

Environment is a great factor in the egg production of a hen. A hen that is kept in a clean, well-ventilated coop will lay more eggs than a hen that is kept in a dirty, poorly ventilated coop.

**How Birds Cope With Cold**

It has been found that, in general, one per cent of the birds that die from cold are those that have not been properly protected.

One of the most important ways to protect birds from cold is to provide them with a dry, well-ventilated coop. This will help to keep the birds warm and healthy.
